

MURDERERS PAY PENALTY WITH LIVES

CHICAGO STRIKE MAY END TODAY

MAY SETTLE THE STRIKE

IN CHICAGO.

Strikers and Railroad Company

Leave the Issues to Two

Men to Settle.

CHICAGO, Nov. 20.—By agreement of representatives of the city railway company and the strikers, the settlement of the strike has been placed in the hands of Clarence Darrow, representing the

DAMAGE DONE BY STORM

IN SAN FRANCISCO.

SAN FRANCISCO, November 20.—Rain fell steadily all night in this city and continues today. The tracks of the Southern Pacific on Harrison street, near Twenty-first, were washed out, delaying traffic on the Coast division for about two hours. Several sewers were clogged but no serious damage anywhere has been reported. The wash-out under the railroad track was caused by the bursting of a sewer.

FIRED ON KING'S

TUTOR.

SENOR BRIESTA WAS SLIGHTLY

WOUNDED BY HIS

ENEMY.

MADRID, Nov. 20.—An unknown man fired three times with a revolver today at Senor Briesta, one of King Alfonso's tutors, who was slightly wounded. The attempt on the tutor's life is believed to have been the outcome of a private quarrel.

DEMOCRATS HOLD

ELECTION.

BOSTON, November 20.—Complete returns today from the city primaries of yesterday show that Patrick A. Collins was re-nominated for Mayor by the Democrats by a plurality of 3,184 over Michael J. Murray and a plurality of 2,502 over Dr. T. H. Gerrey, his two contestants for the nomination. The total vote of Mayor Collins was 30,904 and of Candidate Swallow 6,552. Dr. George W. Galvin was nominated by the Socialists for Mayor.

ROBERT FARMER

SUED BY WIFE.

Suit for divorce was begun today by Celia Farmer against Robert G. Farmer, whom she alleges, has deserted her. They were married in this city in 1894.

ORESTES PIERCE DID NOT

MAKE A WILL.

The late Orestes Pierce died without making a will, and today two documents were filed in regard to his estate. The first was a request signed by Fella McKee Pierce, the surviving widow, asking that Sam Bell McKee, her brother, be appointed administrator of the estate. The second was Mr. McKee's petition, in which he asked the court to appoint him administrator of the estate. The petition states that deceased left property consisting of stock in the Williams Pulp and Paper Company, of which he was president; stock in the San Francisco National Bank and other corporations, bonds and promissory notes

HE WAS

SHOT TO

DEATH.

Mortensen Declared His

Innocence to the

Very Last.

Killed a Man in Order to

Avoid Payment of

a Debt.

SALT LAKE, Utah, Nov. 20.—Peter Mortensen, the slayer of James R. Hay, was shot to death in the southeast passage of the State Penitentiary yard at 10:31 this morning. Maintaining his courage to the last, he walked to the chair, placed against the heavy stone wall of the prison yard, without weakening and bled the guards and deputy sheriffs good-bye with no tremor in his voice.

Mortensen was killed instantly, the four bullets from the rifles of the executing squad concealed behind a thick curtain in the door of the blacksmith shop twelve yards distant, piercing the white target, pinned over his heart. When the shots rang out, Mortensen's body lunged forward in the chair, his head dropped on his breast and his hands, strapped to the chair, quivered a moment and then were still. Examination showed that all four bullets had gone clear through his body and into the boards behind the chair. Mortensen's remains were later turned over to his relatives for burial.

SAID HE WAS INNOCENT.

To the very last Mortensen asserted his innocence of the murder of Hay. "I did not kill Jimmy Hay," he said to the newspaper men whom he sent for just before he was led to his death. "I am innocent of this crime. Neither here nor in the hereafter will I forgive those who have sent me to my death."

Mortensen refused to see ministers, either of his own belief, the Mormon, or any other denomination, and also refused stimulants, saying he needed neither.

This was the first legal execution in Utah for seven years.

Peter Mortensen was shot to death for the murder of James R. Hay on the night of December 16, 1901. The day following a report was circulated that Hay, who was secretary of the Pacific Lumber Company, had absconded, taking with him \$3,800 collected from Mortensen on a bill due the company. Mortensen was indebted to the company for material used in his contracting business and had been urged to make a payment. December 16 he called at the office of the company, said he had the money in gold concealed in his cellar and asked Hay to come around that night and get it. The men were neighbors.

HAY LEFT HIS HOUSE SHORTLY AFTER dinner that evening stating he was going to Mortensen's to collect some money. That was the last seen of him alive. December 18th, Hay's body was found buried in a shallow grave in the middle of a pasture not far from Mortensen's home. A bullet hole through the head showed the manner of death. Mortensen was immediately arrested.

Soon afterward Mrs. Mortensen left Salt Lake with her children without calling on her husband to say good-bye. The laws of Utah do not permit a wife to testify against her husband, but it was learned that Mrs. Mortensen considered him guilty of the murder because of the fact that he had gone out with Hay that night and remained over an hour. When he returned he was ghastly pale and cautioned his wife not to tell anyone he had left the house.

CIRCUMSTANTIAL EVIDENCE.

A strong chain of circumstantial evidence was woven around Mortensen at the trial and he was pronounced guilty on the first ballot. The most sensational incident of the trial was the testimony of James Sharp, Hay's father-in-law, who stated that he knew on the night before the body was discovered that Hay had been murdered by Mortensen, because "God had revealed it to him."

This so-called "revelation" testimony was made the basis of an appeal to the Supreme Court for a new trial, which, however, was denied. The jury stated that this had not influenced their decision in any way.

The choice of death by shooting or hanging is given condemned in Utah and Mortensen chose to meet his death by the bullets of the prison guards.

TOM HORN PAYS PENALTY

ON THE GALLOWS.

No Attempt Was Made to Rescue

the Condemned Man.

TOM HORN WHO WAS EXECUTED

TODAY.

CHEYENNE, Wyo., November 20.—Tom Horn was hanged at 11 o'clock today. No attempt at rescue was made and the execution passed off quietly. Coble came again to the jail and was permitted to see Horn. He remained with him only a moment.

"Good-bye, Tom," he said in a choked voice. "Tom, I can't stay. I came to say good-bye. I'm sorry, Tom, but die like the man I know you to be. Tom, fate's against you; you must die. Good-bye. God bless you. Good-bye, Tom."

SAID GOOD-BYE.

"Well, John," said Horn, "I'm glad you came."

"Can't we shake hands," pleaded Horn of the keepers. Sheriff Smalley hesitated, then opened the door of the cell for the first time since the death watch was placed.

Coble and Horn clasped hands in the cell. "Good-bye, John," Horn broke the silence. Coble returned a faint "good-bye" and walked away.

THE EXECUTION.

Horn made no confession and no speech on the scaffold. He never lost his nerve.

The execution was witnessed by forty persons, including the guards, friends of Horn and newspaper men. The spectators were admitted to the jail at 10:45 o'clock, one by one, and searched for firearms. Men armed with Winchester stood at the door watching Horn's friends.

Horn's neck was broken by the falling of the trap and death was instantaneous.

Horn spent nearly all the morning after eating a hearty breakfast, writing letters.

Tom Horn was born in Scotland county, Missouri, November 21, 1860. He was a celebrated army scout, Indian fighter and cattle detective. He was the scout in charge of the party that captured Geronimo and was chief of scouts under General Miles in his Porto Rico campaign. In 1892 Horn participated in the raid against the cattle rustlers of Johnson county, Wyoming.

HE WAS WELL EDUCATED.

Horn was a self-educated man. He spoke German, Spanish, Apache and a number of Indian languages fluently. Last summer he wrote 160,000 word history of his career. This book he left to his staunch friend, John C. Coble, of Bosler, Wyoming.

Horn was suspected of having committed several murders besides the one for which he was hanged.

GOVERNOR SAIL "NO."

Governor Chatterton was aroused before six o'clock this morning by friends of Tom Horn who again sought a reprieve for the condemned cattle detective, who is to be hanged today for the murder of Willie Nickell, an 14-year-old son of Kels P. Nickell, an Iron Mountain ranchman. The Governor listened to the arguments of Horn's friends for some time and then said emphatically:

"There is no use, gentlemen. This

CHARGES

MADE BY

CONSUL.

He Says Extortion Was

Practiced on British

Ship Owners.

Collector of Port Sends

the Testimony to

Washington.

SAN FRANCISCO, November 20.—The testimony taken by the Collector of the Port under the charges preferred by Courtney Bennett, British consul-general, against John Ferem, superintendent of the sailors home, has been submitted to the State Department. The allegations were that Ferem used his position to extort money from the owners of British ships.

According to advices from Washington, the evidence is to be submitted to Congress with the view of cancelling the lease of the home and taking it back under federal control, the lease having been made originally to San Francisco at a rental of \$1 per annum with the understanding that the building should be used as an asylum for sick and destitute seamen.

*****O*****

The reasons for Horn's friends not attacking the jail as planned, said Delaney. "I guess their leaders decided that it would be only courting death to attack the jail."

Adjutant-General Striker, after a conference with Governor Chatterton, this morning, decided to place more members of the militia around the jail. This was caused by the early arrival of the crowd. Even before daylight persons came to the vicinity of the jail and took the best points of observation. Every second brought additional arrivals until the vacant lots in the vicinity were crowded with people.

THE LAST TALK.

Once more Charley Irwin came to the jail, this time in answer to a hurried message. Horn had sent for Coble, saying he wanted to talk to him before he died.

"I can't refuse him this request," said Vailor Proctor. "But any one that enters the jail will be searched, and Coble must talk to Horn in my presence."

Irwin waited patiently for the arrival of Coble. "I will make John let me go in his place," he said. "He knows Tom will tell me more than any other person. I must talk to Tom Horn before he dies. Remember, I do not think he is guilty."

DIED GAME.

Tom Horn died at 11 08 a. m., game to the last and smiling. His neck was broken by the fall of the trap.

Horn denied that he had ever confessed the murder of Willie Nickell, but told his spiritual advisers he had been guilty of crimes but not wilfully so.

Ten minutes before he was bound for the scaffold, he lay on his cot smoking a cigar and looked out at the spectators.

HORN HOPEFUL.

Horn has apparently been hopeful all along that in some manner he would escape the gallows, but last night he wrote a farewell letter to John C. Coble, manager of the Iron Mountain Cattle Company, by which he was employed for ten years, his business being to prevent rustling or thefts of cattle.

"If I go I want John to have this letter," he said.

The letter was devoted to saying good-bye to Coble and making a few requests as to what should be done with the personal property he should leave.

HIS CLOSE FRIEND.

Charles Irwin, the stockman who has been one of Horn's closest friends, renewed his efforts to see the condemned man early today but admission to the jail or even to the Court House was denied him by Sheriff Smalley.

"I'll be down in time for the execution, however," Irwin said. "I have an invitation from Horn."

It was reported that Irwin, falling in his efforts to see Horn alone, would ask him on the gallows if he killed Willie Nickell. Sheriff Smalley said that he would not permit any of the spectators to speak to Horn while he was on the gallows.

CHARLIE IRWIN WILL SING.

"Charlie, as Horn neared the edge of the balcony and looked down."

"Hello, Tom," said Irwin, with a pleasant smile, and a wave of his hand.

COWBOY SONG.

"Charlie," answered Horn with a smile.

Charlie and Frank Irwin then sang that old cowboy railroad song, "Keep your hand upon the throttle and your eye upon the rail."

The rich yet untrained voices of the two brothers rang through the corridors.

(Continued on Page 3.)

PLAN TO

PAVE THE

AVENUE.

Telegraph May Soon Be

Repaired By the

People.

Councilmen Sign Agree-

ment to Protect Prop-

erty Owners.

After battling for years over the outrageous condition of the pavement of Telegraph avenue, the residents on that thoroughfare are gratified to know that there is now a prospect of a speed settlement of the strife.

Several obstacles have stood in the way of the abatement of the nuisance, the principal one of which was the denial, on the part of the city, that the thoroughfare had been accepted by the municipality and, as a consequence, there could be no answer save that of a refusal of the request of the property owners to have the cost of repairing borne by the municipality.

Now, a majority of the Council has agreed to vote to accept the thoroughfare on one condition and that is that the expense of the repairing be borne by the abutting property owners. The agreement is as follows:

"Whereas, Cal. November 15, 1908.

"Whereas, We are assured that the property-owners along Telegraph avenue did, heretofore, pave said street, expecting that the same would be accepted by the Council, which was not done; and

"Whereas, The property-owners are disposed to fix a street again in first-class shape; now, therefore, as an act of justice to said property-owners, we are in favor of accepting Telegraph avenue, between Sixteenth and Thirty-sixth street, provided sewerage and proposed street work be done in accordance with specifications adopted for said improvement. Signed:

"B. C. CUVELLIER,
"EDWIN MEESSE,
"GEORGE W. DORNIN,
"ALBERT E. ELLIOT,
"G. E. AITKEN,
"ALEX. H. ADAM,
"J. H. WALLACE,
"B. H. PENDLETON."

There are only three councilmen's names not included in the foregoing, namely, Messrs. Baccus, Fitzgerald and Howard. Mr. Howard is out of town and Messrs. Baccus and Fitzgerald have not been seen on the subject.

This agreement has been in circulation for some time and has been signed by the residents on Telegraph as a means of inducing the latter to sign in favor of improving the street as indicated above. It has had a beneficial effect.

Accompanying the agreement is the attestation of City Clerk Thompson that the agreement is an file in his office.

More than half the frontage on Telegraph avenue has signed in favor of paving the thoroughfare with bitum at 25¢ cents per square foot, the contractors guaranteeing to furnish pavement equal to that on Clay street.

WORKMEN BURIED

BENEATH SEWER.

YOUNGSTOWN, Ohio, Nov. 20.—Early today the casing in the Wilson avenue sewer gave way and buried six workmen underground ten feet of sand and gravel. Martin Timlin and Raphael Child were killed, two others probably were injured and two escaped without injury.

For a Cold on the Lungs, and to prevent Pneumonia, take FLEMING'S CURE.

CHOICE AUCTION SALE.

We have received instructions from Mr. G. Hackett, 1331 Ninth of McPherson street, near San Jose avenue, Alameda, to sell at public auction his fine house-hold goods. Sale Monday, November 23, at 11:00 a. m.

Blank's Good Duck Story

It wouldn't be one whit better if he gave his real name.

"I have never missed the opening of the duck season until last year," said the man who is known in Oakland even better than her Mayor. As he spoke he threw down a bag of fine game in the corner of the restaurant and carefully placed his gun against his chair.

"Last year I was too sick, run down and rheumatic, and my doctor said there must be no hunting—never again. This was pretty hard, but I resigned myself to my fate, and made a silent farewell to gun and dog."

About three months ago I saw a story in the papers about an Oakland politician who had been in a fix about the same as mine. He thought his end was in sight, when some one suggested "Mallot" to him. I knew that fellow well, and often wondered what had built him up again. When I learned that was Mallot I said to myself "now, my boy, there's a pointer for you."

Well, I took Mallot for three months—cost me about ten dollars—and when this duck season opened was I missing from the club grounds? Not so that you'd notice it. Well, to cut it short, I never felt better in my life; my eyes and hands as steady as ever, and as to appetite, wait till I give the waiter my order—that's the result of Mallot. It's worth twenty simoons a bottle.

Mallot is sold exclusively by Osgood's. Its price is \$1.25 a bottle, but this firm has cut the price to \$1.00.

Seventh and Broadway

OAKLAND

TO HAVE BENEFIT AT PECK'S.

LABOR UNIONS WILL ASSIST STRIKERS IN MENDOCINO COUNTY.

At the meeting of the Federated Trades Council last night, it was decided to give a benefit at Peck's Theater, corner of Fifteenth street and San Pablo avenue on Friday evening, November 27th. The proprietors have donated the use of the house and the services of the performers so the proceeds can all go to the striking lumbermen at Fort Bragg. There will be three performances during the evening to accommodate the large crowd that will undoubtedly attend. The following donations to the strikers were reported by the delegates from the various local unions: Cooks and Waiters, \$15; Bartenders, \$5; Musicians, \$5; Soda Water Bottlers, \$2.50; Laundry Workers, \$10; Carpenters, Local Union No. 25, \$25.

At the request of the Musicians' Union, a boycott was declared by the Council against the Slavonian dance at Germania Hall on Thanksgiving Eve.

ASSEMBLY CLUB WILL MEET THIS EVENING.

LOUISE HAGAR.

The Monthly Assembly Club will hold a pleasant gathering tonight at Maple Hall. The membership is limited to 100, and among the members are: Miss Beate Tallman, Mrs. T. R. Quayle, John Reed, Louise Hagar, Miss Aldrich, J. R. Tallman, Miss Ulrich, T. R. Quayle, Miss Thompson, Cecil Graham, Miss Westland, Miss Cumberston, Miss Cooley, Mrs. Bowdell, Misses Greer, Mr. Taylor, Miss Fanny and Miss Laura Postel, Miss Claude Bordenman, Miss Fitzmaurice, Mr. White, Miss Dubney, Mr. J. R. Parke, Miss Zelma Brink, Miss Lydia and Miss Jeannette Dozier, Miss Jessie Smith, Mr. Claude Pugh, Miss Gertrude Mansfield, Miss Margaret Slavich, Miss Barnes, Lowell Redfield, Miss Plans, Walter Flint, Miss Moore, V. Tyrrell, John Jordan, George Vandy, Lee Griswold, Mr. Herman, Miss Merrill, Miss Jarvis, Miller Hotchkiss, Miss Florence Flocer, Mr. Nightingale, Miss Carter, Dr. Locke, Miss Lotsey, Mr. Makins, Miss Kent, Dr. Lackey, Miss Magersdorf, Mr. Price, Miss Edith Emigh, Mr. Miliken, Miss Daisy Chisholm, Percy Holmes, Mr. Lutz.

The society neglected to hire a union orchestra. H. Barlow was seated as a delegate from the Carriage and Wagon Workers' Union.

PAINTERS.
The painters last night decided to form a sick benefit auxiliary. The plans of the organization have not been perfected, but it is the intention to grant a benefit allowing to members \$7.50 a week. For this the monthly dues will probably be \$1. The auxiliary will be a separate organization, entirely independent of the Painters' Union. Five new members were initiated, four applications filed and two clearance cards granted.

MILKMEN'S BENEFIT.
The performance of "Othello," which was to have been given last night at Dietz Opera House for the benefit of the Milkmen's Union, was postponed because of the rain. The production will be given Friday, Saturday and Sunday evenings. The proceeds to go to the union. Tickets issued for last night will be good for tonight and tomorrow night. The plumbers and their helpers will attend the production tomorrow night in a body.

CARRIAGE AND SIGN PAINTERS.
The carriage and sign painters will initiate two candidates at their meeting tonight.

ELECTRICAL WORKERS.
The Electrical Workers will meet tonight and make final arrangements for the carnival and dance to be held in Mechanics' Pavilion tomorrow night.

CLOAKMAKERS' DEMANDS REFUSED.

The Cloak Manufacturers and Ladies Tailors' Protective Association at a meeting last Wednesday evening decided to refuse the demands of Cloakmakers' Union No. 8 of San Francisco, for an eight-hour workday on Saturdays and pledged all employers to insist on eight hours working nine hours six days in each week, including Saturdays. Notice of this rule was yesterday posted in every shop.

MATERIAL TEAMSTERS.

The Material Teamsters met last night and discussed the new schedule recently submitted to the Building Trades' Council for endorsement. Further plans were made for the dance to be given next month in Army Hall on Twelfth street.

LEATHER WORKERS.

The leather workers of San Francisco and Oakland will give an entertainment and dance tomorrow night in Lyric Hall, Eddy street, San Francisco.

EXPRESS DRAYMEN.

At the regular meeting of the Express and Draymen's Association at California hall last night a few of the regular attendants were conspicuous by their absence on account of the heavy rain.

A very lively and enthusiastic meeting was held by those present. A very earnest and lengthy discussion was held over the new schedule of rates. The new schedule book is in the hands of the printers and will in all probability go into effect the first of December.

At the close of the meeting the members adjourned to a local restaurant where a banquet had been prepared. Cerecinos and all of the speeches, none were so vividly interesting or so full of interest as his talk on the Early Reminiscences in Oakland, largely dealing with the developing of the Oakland water front. At a late hour all adjourned with words of praise for

(Photo Belle-Oudry.)

the committee, which had the affair in charge.

BEER BOTTLERS' DANCE.
John Stromberg, Thomas Hartman, Frederick Kinkaid, Charles Kearney and Ernest Knox were appointed a committee by the Beer Bottlers' Union last night to arrange a dance for the near future.

The affair will be held about the middle of January.

CLERKS TO PLAY BALL.

Baseball teams representing Shoe Clerks' Union, San Francisco, No. 410 and Retail Clerks' Union, No. 432, will play a game on Thanksgiving morning, November 26th, at Recreation Park for a silver trophy. This will be the second game, the shoe clerks having won the first match played some weeks ago.

MEETINGS TONIGHT.

The million shingles carriage and sign painters will hold meetings this evening in Kohler and Chase Hall, 459 Eleventh street. The ice and soda water wagon drivers will meet at Cooks' and Waiters' headquarters, Eighth and Broadway, gas workers and electrical workers at California Hall, 1215 Clay street.

LABOR AND CAPITAL.
A meeting was held last night at the Alhambra Theater for the purpose of discussing and bringing before the public the proposition of establishing a closer relation between labor and capital by the means of arbitration in spite of the elements of the weather. The meeting was well attended and considerable enthusiasm was displayed at the remarks of the various speakers.

The meeting was arranged by P. H. Scullin of Seattle. Byron Murray presided and introduced the following speakers: P. H. Scullin, Archbishop Montgomery, Rabbi Jacob Voorsanger and the Rev. George C. Adams.

GAS WORKERS.

The gas workers will tonight discuss the new 1904 schedule they are planning to submit to the employers next month.

PAPER BOX WORKERS QUIT.

More than 350 paper box workers quit their jobs yesterday morning in San Francisco because of difference with the employers over the wage scale. Seven factories are tied up completely in consequence. At the Union Box Factory the employees reported for work, but concern having been expressed about the demands of the union, the workers believe that the trouble will be of short duration as the present time is the busy season.

LABOR NOTES.

Cobblers (shoe-repairers) at Brockton, Mass., have formed a union.

A Central Trades Council has been formed at Houghton, Wash.

Longshoremen at Brunswick, Ga., demand an increase of 2½ cents an hour. Elsewhere, the workers of the United States will demand an eight-hour day on May 1, 1904.

Miners at Washington, D. C., will demand an increase in wages from \$3 a day to \$3.50.

The German glass industry comprises 400 factories, which give employment to 35,000 workmen. Patternmakers at Manchester, England, have asked for an advance in wages of 2 shillings a week.

Furniture workers at Grand Rapids, Mich., have demanded a nine-hour day, with ten hours' pay.

United Garment Workers of America have increased in membership from 5000 to 60,000 in 12 years.

A co-operative grocery has been launched at Edinburg, Ind., the Lake Shore shoe men asked for the prime shoes.

A settlement of the strike in the building trades at Albany, N. Y., is in sight.

The strike has been on over two months. It requires the labor of about 10,000, 600 men and women for nine months of the year to harvest all the crops of the world.

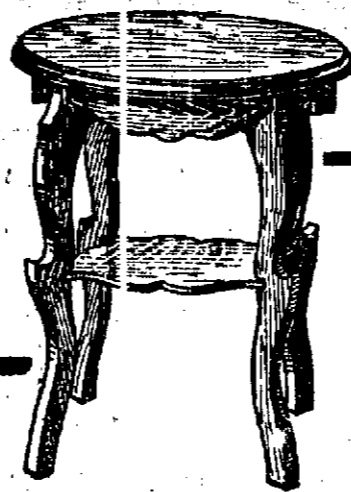

Steamfitters at Atlanta, Ga., are on strike to enforce their demand for an increase of 50 cents a day. They now receive \$3.

The number of persons employed in the tea industry throughout British India was, in 1902, 606,839 permanently and 90,940 temporarily.

Cleveland, Ohio, painters may strike because the master painters have canceled the wage agreement made with the union in April.

The trades and labor congress of Canada has been a prominent factor in labor circles and this important assembly, which meets every year, is now the Dominion's central body for legislative purposes. The congress was first organized in 1878, when but 45 delegates were in attendance, and since then the organization has gradually been increasing in membership, and it now has assumed large proportions.

The law in England makes trades unions responsible for damages in case of strikes, where these strikes have been wrongfully called. Of course, whether

4 Great Specials

Now on Sale at MACKAY'S

We have a big stock of furniture, and as we go through it from time to time, discover that it needs weeding-out and evening up. We find that we have a great many similar patterns—so near alike that one or the other is superfluous. We also find that certain lines have been broken, leaving the sample and one or more in reserve. The floor space is crowded.

A recent investigation developed the fact that there are about 300 such pieces. These we want to close out between now and January 1st, and have put a price on each that should move them, as will be seen from these illustrations. Most of the articles that we will offer are suitable for Christmas tokens. What could be more practical than a selection from our fine line of furniture. Articles purchased now will be held and delivered any time before Christmas.

If you are interested in furniture even in the smallest way don't fail to take advantage of these Walter S. Mackay & Co. specials.

Our carpet and rug department will be of particular interest to all, and will not be one bit behind when it comes to offering values.

The House That Saves You Money

Larkin street in San Francisco. Her husband was a policeman in the San Francisco police department and died about twelve years ago. Both she and her son were employed in the telephone company. He is about 30 years of age and she is just 50.

It was a futile attempt Mrs. J. Linskey made yesterday afternoon to commit suicide in St. Mary's Cemetery, and Steward B. Short at the Receiving Hospital hopes that she will have recovered sufficiently to leave the hospital in a day or two. She did not regain consciousness during the early part of the night, and later grew delirious. Today, however, she is resting as easily as possible for one in her condition.

Her son, Joseph Linskey, came over from San Francisco last night and stayed all night at his mother's bedside. This morning he said that his mother hardly yet realized that she was alive. "She has been unable to tell me anything as yet," he said. "She has been brooding over it some. Every time she comes to her senses she makes me think things were worse than they were. As soon as she is able I shall take her home."

Mrs. Linskey and her son live at 1214

THE LATEST NEWS.

SAVED SAN JOSE FROM A BIG ACCIDENT Across Bay.

SAN FRANCISCO, Nov. 20.—Train No. 32, San Jose local, due at Third and Townsend streets at 5:55 a. m. Engineer M. E. Montgomery, had a narrow escape this morning from being ditched at Twenty-first street. The heavy train of last night had broken the sewer under the track and as a result there was a yawning ditch 100 feet long, 10 feet deep and as wide as the track.

GAVE WARNING.
T. W. Brown, who lives at the corner of Twenty-first and Harrison, saw the break. He knew that a train was due and stood upon the track and signaled to Engineer Montgomery.

The velocity of the train was so great that the engineer was unable to bring the heavy train to a standstill until the cowcatcher was over the hole.

A NARROW ESCAPE.
Engineer Montgomery in speaking of the matter said:

"This is a most wonderful escape. When I saw a man pointing to the track I took him to be a fool, and, as the motions he made meant, according to railroad signaling, 'slow up,' accordingly I slowed up."

At first I had no intention of stopping. Something in the man's action gave me a warning, and I put on the brakes. "Lucky that I did," I think so. If I had gone into that hole I can't say what would have happened.

I don't think either the firm or myself would have escaped, and then to think of the disaster to the rest of the train! It is too horrible to think about."

REASONS OF BREAK.
The theory advanced is that No. 22, an overload, which is an exceptionally heavy train, passed over there about ten minutes before. Engineer Montgomery thinks that the weight of the overload must have started the crack. Well, I think so. I imagine the weight of this train, said Engineer Montgomery, when the locomotive and engine were all there, was about 100 tons, and all the baggage, mail and dining cars.

SAN JOSE.
The San Jose local is one of the best patronized trains of the Coast Line and carries from 200 to 400 people. There were some five coaches upon the train and each seat was taken.

As the passengers came off the train and viewed the wreckage, many of them looked as if it could have engulfed the entire train, there were more than mere expressions of thankfulness.

AMUSEMENTS.
Haverly's Minstrels will be at the Macdonough Theater tomorrow and Sunday nights and also at a Sunday matinee.

IDORA PARK.
The Royal Italian Band will play two engagements at Idora Park Sunday. The first performance will be given at 2:30 in the afternoon and the second at 5:30 in the evening. An excellent program has been arranged.

DEWEY THEATER.
James Keane is making a hit at the Dewey Theater in "Under Two Flags." The play is a popular one.

**TWENTY-THIRD INFANTRY
STARTS FOR ISLANDS.**

CHICAGO, Nov. 20.—The Twentieth United States Infantry which has been stationed at Fort Sheridan, left today for San Francisco on the way to the Philippines. The Regiment will stay in the eastern islands two years. Four special trains carried the Regiment which has one thousand men with cooks, surgeons, nurses and other attendants. The troops will sail from San Francisco December 1st. Colonel William S. McCuskey is in command.

POISONED THE DOG.
Mrs. Julia Taylor set out strychnine in bread and milk for a tramp cat. The bait was eaten by Jimmie, a dog owned by F. C. Williams and valued at \$500. The dog died.

Williams brought suit to recover \$150 Judge Samuel has taken the case under advisement.

THE RAINFALL.
The rainfall for the twenty-four hours ending 7 p. m. today was 2.90 inches, making 32.72 for the season, as compared with 54.9 inches at the corresponding date last year.

WILL MEET THIS AFTERNOON.
The Board of Police and Fire Commissioners will meet in regular session this afternoon. Thomas Brown, Charles E. Ford and William F. Kyle will be appointed substitute policemen. The two other men on the eligible list, H. N. McCready and W. J. Tobin, have not made application for appointment, evidently believing there was not enough doing to allow so many substitutes to earn a living.

CAVALRY MAY GO TO PANAMA.

SAN FRANCISCO, November 20.—There is much excitement around the headquarters of the Fifteenth Cavalry and there is a belief that the regiment will be sent to Panama.

Late yesterday afternoon a telegram was received from the War Department ordering the cavalry, which was to have left today for the East, to remain at the Presidio and hold themselves in readiness for transportation.

HELD FOR ORDERS.
The Fifteenth Cavalry was to have relieved the Second Cavalry at Fort Ethan Allen, Vermont and Fort Myer, Va., the Second Cavalry to have sailed from New York for the Philippines via the Suez canal.

The date of the Second Cavalry's sailing has also been postponed, and the regimental commander has been instructed to hold the command ready for sailing at any time.

THINK IT IS PANAMA.
This is thought by the officers of both the Fifteenth Cavalry and the army headquarters to indicate that both of these regiments will be sent to Panama if the situation becomes such that troops are required.

DAMAGE BY STORM.
Rain came down in torrents last night and caused minor breaks in the sewers, besides demonstrating that the catch basins at the new Twelfth street dam were not of sufficient capacity to carry off the storm water that fell. A gully was washed out at each end of the dam and a portion of the bituminized sidewalk was carried away.

This morning the Superintendent of Streets had a force at work at the new dam putting in a relief outlet on the south side to carry off the surplus.

Report was brought in that the Market street sewer was nearly full and that water was pouring into the Eagle Box Factory at the corner of Market and First streets. Inquiry at the factory developed that the door of the engine room was covered with water to a depth of eight or ten inches and that in the boiler room it reached to a height that covered the grate bars in the furnace, making it impossible to light the fires, and it was still raining at 11 p. m.

The Street Superintendent sent out a force of men to break the dam in the sewer if possible, and get the flood headed in its proper direction.

**LEBAUDY'S AIRSHIP
IS DESTROYED.**

PARIS, Nov. 20.—The Lebaudy airship on descending yesterday near the ballooning grounds at Meudon, struck a tree and blew up. The whole airship was completely destroyed, but the occupants, a male and an Englishman, were uninjured. M. Lebaudy was not on board.

SCHOOL BONDS.
The special meeting of the Board of Education, scheduled for Monday evening next to consider matters in connection with the submission to an election of the proposition to issue bonds for the amount of \$200,000 for school purposes, has been called off in order to give the District Attorney from whom an opinion had been asked, further time to investigate and to formulate his report upon the matters submitted to him.

SPRECKELS ILL AT HOME.

SAN FRANCISCO, Nov. 20.—Claus Spreckels, sugar magnate and many times millionaire, is slightly indisposed at his residence on Van Ness avenue.

A report gained currency that Mr. Spreckels was very ill, but this is denied by members of the family.

About two months ago Mr. Spreckels had a slight stroke of paralysis, the extent of which was magnified by those who did not share the confidence of the family. Rumor had it that the patient had suffered a second stroke a few days since, which affected his vocal chords in such a manner that he could scarcely speak. Owing to the age of the patient the case was deemed serious, although his robust constitution was well calculated to pull him through.

IS IN NO DANGER.
Mr. John D. Spreckels said this morning that there were absolutely no grounds for apprehension on the condition of his father.

The old gentleman suffered a slight stroke about two months ago, said Mr. Spreckels, but at no time was his condition such as to occasion alarm. He has entirely recovered from the stroke.

At present, however, a slight indisposition is as well as ever. The inclement weather has kept him indoors, but his disposition is not such a nature as to confine him to bed.

Mr. Claus Spreckels is accounted the wealthiest man in the city and one of the best and most conservative business men. He is a man who has always had the interest of San Francisco at heart and many monuments to his enterprise stand to his credit.

He was always a fighter, which characteristic trait appears to run through the family, and his aggression and good nerve won him his laurels and his wealth.

**TWENTY KILLED
IN WRECK.**

WRECKAGE IS CLEARED AWAY
AND TRAINS RUNNING ON
BIG FOUR.

PEORIA, Ill., November 20.—An Associated Press reporter who has just come in from the scene of the Big Four wreck east of Tremont, reports the wreckage as entirely cleared away and trains running over the Big Four.

The list of casualties has been considerably exaggerated.

A total of eighteen bodies were recovered, many of them in a horribly mangled condition.

Of these eighteen all but three have been identified.

The list of injured numbers fourteen, two were placed in Bloomington and Peoria hospitals.

Two of the injured have since died, bringing the total number of deaths to twenty.

Coroner Holmes of Delavan has empaneled a jury and is preparing to hold the inquest today.

**HAD CLOSE CALL
FOR LIFE.**

William Johnson of 37 Fremont street, San Francisco, is congratulating himself upon being alive. For about twenty minutes this morning he feared he would furnish a case for the coroner.

Johnson is employed on the tug that brings the Call to Oakland in the early morning hours. After its freight had been docked he went ashore at the foot of Broadway about half past three o'clock and cast off the line that held the boat's nose to the wharf, lost his balance, fell overboard and as his absence was not discovered the tug continued its course and left him floating in the cold, deep, wet water.

Finally he succeeded in grasping one of the barnacle covered piles and held on for dear life, while his cries for help echoed and re-echoed through the stillness of the morning hours. When his grasp was about to loosen he heard the welcome voice of a carrier who had lingered on the wharf, who lent him a helping hand and drew him to the wharf and the joys of a continued existence.

Johnson wandered to the police station where he was given quarters while his clothes were drying, after which he returned to San Francisco to tell his mother whose sole support he is, how near he came to crossing the great divide.

FUNERAL OF DR. ESTERLE.
The funeral of Dr. Albert M. Esterle was held this afternoon at 572 Thirtieth street, the services being conducted by Rev. E. R. Dille, pastor of the First Methodist Episcopal Church. Despite the stormy weather, there was a large gathering of friends and acquaintances. "A Little With Me," "Jesus Lover of My Soul," and "Nearer My God to Thee," were sung by Walter C. Wilson, accompanied by Rufus Smith, organist, and a quartet. The bearers were W. H. H. Graves, Emil Fritsch, Fred L. Button and Mr. Hall.

YORK Pa., Nov. 20.—The plant of the New Freedom Wire Cloth company, a short distance from here, was destroyed today. Loss \$75,000, partly insured.

PASSAGE OF RECIPROcity BILL— METCALF OPPOSES IT TO THE FINISH.

WASHINGTON, November 20.—The passage of the Cuban Reciprocity by an overwhelming majority of both parties in the House is regarded here as a signal triumph for the President. To have the measure rejected by the last Congress so unanimously accepted by this Congress conceded to be a significant endorsement.

Of the 21 votes cast against the bill, nine came from Democrats. Three Californians—Gillette, Republican, and Wynn and Livermore, Democrats—voted for the bill. Metcalf, Needham, Daniels and McLachlan, Republicans, and Bell, Democrat, voted against it.

The Democrats made no attempt to defeat the bill, but centered their efforts on an amendment to abolish the differential duty on refined sugar. This was the amendment that killed the bill in the last Congress.

Congressman Metcalf stood to his guns to the last although a member of the Ways and Means committee that reported the bill. He informed Speaker Cannon prior to being assigned to the committee with that understanding.

He also explained his attitude to the President stating that he was committed by pledge and convictions to oppose the measure.

The bill will not have such quick passage in the Senate. That body is far more deliberate than the House, and has no closure rule to expedite business. Besides, several conservative Senators, including Teller of Colorado and Newlands of Nevada, are preparing to attack the bill at length. The Louisiana and Florida Senators will also fight it. Bard of California voted against the bill.

There will be considerable debate and some delay, the passage of the bill is regarded as certain, as it is understood there is no intention to talk the bill to death. However, the discussion may be so protracted as to carry the measure over into the regular session.

**RACE ENTRIES FOR
TOMORROW.**

EMERYVILLE, November 20.—The races scheduled for tomorrow are as follows:

FIRST RACE.
Seven furlongs, 4-year-olds and upwards; selling.

5322 Redwald 95

APPRENTICE ALLOWANCE.
The Thanksgiving Handicap event was announced today. The race will be one mile and a half. The winner will be added to the stake. Weights will be announced November 23. There are fifty-nine entries.

**MAYOR GOES ON
A TRIP NORTH.**

Mayor Olney has gone to Seattle, Wash., and Portland, Ore., on a ten days' trip in the interest of the city, and will investigate the water supply of those places and their manner of disposing of their garbage.

The Mayor hopes to acquire pointers that will be of value to Oakland. He expects to return in advance of the filing of report by Engineer Desmond Fitzgerald upon the water proposition.

HE WAS HELD UP.
ORDEN, Utah, Nov. 20.—Charles H. Groat, brother of Congressman Groat of New York was held up last night and robbed of \$1 and a gold watch. The robbers escaped. Mr. Groat is secretary-treasurer of a commission house and was on his way home when the robbery occurred.

HE TALKED TOO MUCH.
BERKELEY, Nov. 20.—Deputy Marshal Carey arrested a deserter of the Philadelphia United States Marines in West Berkeley this morning. The prisoner gives his name as Ed Thompson. He is a native of California, and is now in evading United States officials and reiterated his statements when Deputy Carey approached him in the guise of a private citizen. Thompson claims to come from a prominent eastern family and said that he would give his brother-in-law a fair and square fight.

ARRIVES AT GIBRALTER.
GIBRALTER, Nov. 20.—The Columbia, the sailing boat, 13 feet long, in which Captain Eisenbraun left Boston August 11 alone, for Marselles, has arrived here.

ROBBERS MAKE A SAVS HAUL.

MARSHALLTOWN, Iowa, November 20.—Compelled to remain in their homes under threat of being shot, the residents of the village of Green Mountain, ten miles west of Marshalltown, this morning experienced a most disastrous day. The explosions wrecked the Green Mountain building, three miles from Marshalltown, through the streets warning the people to keep indoors and shooting wherever they appeared. The robbers secured \$1000 and escaped on a hand-car.

**TOM HORN PAYS
PENALTY.**

(Continued From Page 1.)

dors and brought tears to the eyes of the spectators.

When the song was finished, Proctor said:

"Charles and Frank Irwin will pass around to the left and come above."

"Thank you, Ed," said Tom, and the two brothers were on the balcony in another moment.

"Tom," said Charlie, "did you make a confession to the murder of Willie Nickell?"

"No."

"Well, Tom, a man's got to die only once and it has to be, so be game."

"You bet I will."

"It's as well first as last, you know."

"Yes, it's all right."

"Well, good-bye, old man. I wish I could do something for you. Is there anything you want me to do?"

"No, I wrote Coble this morning."

"Good-bye."

"Good-bye."

The two Irwins passed around back to the lower floor in the front where they were within five feet of the drop. Proctor began to fasten the straps. Horn turned and twisted to suit the executioner.

"Well, Joe," he said to Cahill, "I hear you are married and doing well; that you are county clerk. Is that so?"

"Yes, Tom; it's true," answered Cahill.

"Well, by God, I'm glad to hear it."

TIED HIS HANDS.
Horn's hands were then securely pinned to his body and he was all ready for the final strap on his feet.

Between Smalley, Proctor and Cahill he walked out onto the platform with short steps and stood looking at the noose.

"I'll have to have a hand to get on that thing," said Horn with a ghastly smile.

"What's the matter, Joe, (to Cahill, who was rubbing his chin nervously) 'are you tying your nerve, are you?"

Proctor picked up the noose at 11:05 o'clock and started to place it over Horn's head.

The condemned man coolly ducked his head and thrust it through the noose.

OAKLAND TRIBUNE

Tribune Publishing Company.

William E. Dargie, President.

CONGRESSIONAL FLIPPANCY.

The opening of the debate in the House on the Cuban Reciprocity bill was not a character to impress the public with the statesmanship of those who participated in it. It has been said that the House is no longer a deliberative body. The tenor of the speeches on the chief measure before Congress today goes far to sustain the assertion. Political partisanship of a very cheap kind seemed to inspire the principal speakers, who talked about everything else but political economy and the question at issue. Among the topics lugged into the debate were references to the Missouri blooders, the postoffice regulations, Cleveland's tariff policy and the probabilities of the coming Presidential election.

Fordney, Republican, from Michigan, made about the strongest speech on either side, but his opposition to the bill was marred by extreme bitterness. Grosvenor, who led off for the measure, made a partisan crowd, and was answered in a similar strain by Champ Clark of Missouri who is invariably one of the end men in every row-dew of partisan trivialities in the House. We take this extract from the Associated Press report of the debate:

Answering a statement made by Clark of Missouri as to conditions existing when Mr. Cleveland went in as President, Grosvenor said:

"Immediately upon the election of Cleveland there was practically a suspension of the income from the Treasury of the United States. It was natural; it was inevitable. It would happen again if somebody other than Roosevelt should be elected President next year."

Clark had asked if Grosvenor knew that of the nineteen men convicted in St. Louis, sixteen were Republicans. "I don't know," replied Grosvenor, "but if that is true it doesn't speak well for the fairness of the administration of justice."

Loud applause followed on the Republican side. Grosvenor, replying to the statement of Clark as to the probability of the Democrats gaining control of the next Congress and electing the next President, said he would show what the result would be. The Democrats, he said, would carry Alabama, Arkansas, Florida, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, Texas and Virginia.

Sulzer of New York—And you might add New York.

Grosvenor—I might add Ohio, but I won't. (Laughter on the Republican side.)

Grosvenor said the Democrats would find some fighting ground in Delaware and Idaho, possibly.

"Maryland," he said, "is ours; Montana somewhat doubtful. I put New York in the doubtful column against my own judgment," he said, adding, "that if the Democrats do not carry New York City they will be defeated in that State."

The intellectual quality of this discussion is about up to a go-as-you-please debate in a ward club. What has the Democratic majority in New York City got to do with Cuban reciprocity? Sulzer, that leather-lunged Tammanyite, illuminated the tariff question by predicting that New York would go Democratic at the next election and Grosvenor, who is old enough to know better, responded by figuring out the probable political complexion of the next Electoral College.

There are probably intellectual giants in these days, but apparently few of them go to Congress.

All the Democratic Presidential aspirants except William Randolph Hearst are lying very low—with their ears to the ground—on the Panama question. One can almost hear the silence crack in the direction of Senator Gorman whose strongest adherents are natural filibusters.

HIT THE WRONG MAN.

Senator Dietrich, who is under indictment for selling postoffice appointments in Nebraska, has stirred up a hornet's nest by charging that United States District Attorney Summers was actuated by malice in having him indicted. Instead of pushing the prosecution of the Senator, Summers tried to delay it by having the grand jury pass it over till the case could be referred to the Washington authorities. For this effort to temper justice to the Nebraska Senator, Mr. Summers received a salty rebuke from Attorney-General Knox, who instructed that no favors be shown anybody.

So, it appears that in striking at Summers, Dietrich was hitting the Attorney-General, who will be in less mood than before to squelch the prosecution. Summers is in danger of losing his job, but not for having Dietrich indicted. In he is removed at all, it will be for obstructing the proceedings against Dietrich in the first instance. On his part, Dietrich figures as trying to revenge himself on a man who jeopardized his official position to save the Senator from indictment. The proof against the Nebraska Senator is indicted. If he is removed at all, Knox would not be so determined in pushing the prosecution.

FOLSOM'S NEW WARDEN.

Archibald Yell, who is said to be slated for Warden of Folsom prison, will go into office with an excellent chance to make a fine record as a penal administrator if it be true that the Prison Directors have given him a free hand in choosing his subordinates and disciplining them in his own way.

Mr. Yell is a lawyer and a politician but he is a man of high character, educated, intelligent and experienced in a way that will enable him to form correct judgments in dealing with individuals and emergencies. He should possess two other prime requisites, firmness and openness of mind—no receptivity, but the capacity to judge of every circumstance and individual on intrinsic merit. It is a fatal mistake to see through the eyes of others or to pass judgment on preconceived impressions.

If Mr. Yell is to be elected to parcel out the places at the prison among the retainers of the Prison Directors or others high in authority, he will make a failure. While political influence cannot be ignored nor entirely put aside, it must be subordinated to the good of the service if the affairs of the prison are to be administered properly. If Mr. Yell has really been let a free agent, his knowledge of politics and the ways of politicians will be of great value to him in his new position.

The suggestion that the United States annex San Domingo will not meet with much favor. The Republic has all the problems it can conveniently handle at present, without reaching out for more. Besides, it is not likely that there is any popular agreement in San Domingo on the question of annexation. The island is divided into two nominal republics, using separate languages, neither of them English, and the social and political conditions existing in both are such as to render annexation undesirable to the people of the United States. Benevolent assimilation is all very well in its way, but it is not wise to pursue it to the extent of making the Republic a rag carpet of races and languages.

A convention of miners is not probably the most appropriate place to voice a protest against hydraulic mining, but cutting off response to criticisms of the Anti-Debris Association is not calculated to make hydraulic mining more popular. After all, the question primarily is one of injury. No enterprise that damages private property or inflicts permanent injury on the watercourses of the State will be tolerated. Nor should it be. While we are wrestling with the problem of conserving the forests and streams of the mountains, it would be supreme folly to sanction schemes that inevitably mean the destruction of both.

Senator Clark of Montana has incubated a scheme to generate electric power at Shoshone Falls on Snake River. It is to be hoped he will not run too much of the water into the stock.

The arrest of former President Cleveland for shooting game in Virginia without a license, will go far to establish Mr. Bryan's theorem that he is the greatest criminal of the age.

The threats of the Canadians to secede have ended in hisses for the American flag. We thought it would come that way.

CONSOLIDATION IS DESTINY.

It is a demonstrable proposition that the federation of Oakland, Alameda, Berkeley, Emeryville and Fruitvale into a city and county government similar to that of San Francisco will result in lower taxes, but a lower rate of taxation is by no means the chief merit of such a scheme.

All the towns named are constituents of the same community, having interests and industries in common. They use the same transportation, lighting and water service, and the streets of one continue without break into the others. The sewer systems invade joint territory and by being under separate political control cause trouble and unnecessary expense.

It is therefore much easier to legislate for the whole district than for segregated sectional parts.

For instance, Alameda, has a joint and equal interest in the harbor which separates her from Oakland. In another case, the sewage of part of Oakland finds a natural outlet through Emeryville. In a third, the drainage of a section of Berkeley flows into Temescal Creek, which intersects both Oakland and Emeryville.

Not only are the cities and towns clustered on this side of the bay parts of a single community having interwoven interests in common, but their inhabitants are homogeneous and in close sympathetic touch save in municipal effort. A common destiny unites them to all practical intents and purposes, but narrow parochial views of municipal government separate them into petty political divisions,

which continue in spite of the law of progress and the trend of all modern municipal life.

Every department of municipal administration, police, fire and street, would be better served if centralized under a single control. The consolidated city would assume a dignity and importance that none of the cities can hope to attain separately. The financial advantage of this is represented by the difference between the \$2.66 for local and general taxation that Oakland pays and the \$1.81 that San Francisco pays. Further than that, consolidation would enable charges for lighting and water to be made uniform throughout this entire urban district, and in the end would simplify the question of municipal ownership of public utilities.

The constituent towns of this urban community are not more separated by natural barriers than are the natural barriers between the different sections of San Francisco. Indeed, Berkeley and Alameda are much more directly and closely connected than are the Potrero and the Richmond districts in San Francisco. Emeryville and Fruitvale are not so far apart nor so widely separated in homogeneity as is the Mission from the Presidio.

In New York the different boroughs are separated from each other by great natural barriers, which have been over-ridden by the necessity for concentration in municipal life.

Here, our interests and destinies are joined by a higher law than municipal charters, and our closer union can not be prevented by statutes or the narrow ambition to preserve in name and in fact an identity that has been lost in fact.

If Colombia sends soldiers to invade Panama, they are liable to be arrested for violating the vagrancy laws.

Senator Morgan now has a chance to score with Livermore. He can protest against his deposition from the chairmanship of the Inter-oceanic Canal Committee as an invasion of personal privilege.

The high price of eggs indicates that the lay of the last hen is about due.

Mayor Schmitz has been telling the people down South that he is a Republican. The Mayor always asserts his Republicanism with energy just after he has smashed a Republican ticket at the polls.

Tom Johnson now realizes that the crop of "Democratic traitors" was a good deal larger than he thought.

It may sound rather trite, but it is none the less apropos to remark that it is a good time for everyone to get together and work for the good of Greater Oakland. It is an excellent time to quit sliding down so many separate cellar doors, and indulging in petty back fence squabbles, and line up for progress.

Down in Texas they are not so prosperous but they resent the bills of the mosquitoes and the yellow fever doctors coming in together.

WORDS OF WISDOM.

Necessity is the priceless spur. When one has come to feel that every disappointment or rebuff which has thrown us to earth is but to test our ability to gather fresh strength, life's hardest battles have been won. Character is a poor man's capital.

Hope may suffice for a breakfast, but serves as a poor supper.

The girl who likes to please is all very well, but the girl who likes to help is worth two of her.

D. E. Hill was the only man in the country who could get any satisfaction out of the elections, no matter which way they went.—Chicago Post.

Bright's Disease and Diabetes News.

SAN FRANCISCO, Nov. 16, 1903.—Mr. and Mrs. Peter Jorgensen of Two Rock, Sonoma county, called at our office Wednesday, Nov. 11th. He looked and felt perfectly well and was enjoying a pleasure trip to this city, but the following was his condition in January of this year:

It was insensible and had been for three days, was blind, his legs were so swollen with dropsy that they could not be crossed, and he was passing from one convulsion into another, being the culmination of a chronic case of Bright's Disease. His death was expected hourly, and neighbors were in to be with his wife at the end. The attending physician said medicine was powerless. Another physician was called in and knowing the claims made for Fulton's Compound he suggested a trial. He did not have the slightest idea anything could be done, but he knew the case was beyond orthodox medicine.

The compound was forced between clenched teeth. The second day he began to rally. The third day he regained consciousness, and declared that the headaches (uremia), which are at times excruciating in these extreme cases, had disappeared. He was in to be with his wife at the end. The attending physician said medicine was powerless. Another physician was called in and knowing the claims made for Fulton's Compound he suggested a trial. He did not have the slightest idea anything could be done, but he knew the case was beyond orthodox medicine.

The compound was forced between clenched teeth. The second day he began to rally. The third day he regained consciousness, and declared that the headaches (uremia), which are at times excruciating in these extreme cases, had disappeared. He was in to be with his wife at the end. The attending physician said medicine was powerless. Another physician was called in and knowing the claims made for Fulton's Compound he suggested a trial. He did not have the slightest idea anything could be done, but he knew the case was beyond orthodox medicine.

POINTED PARAGRAPHS.

People seldom appreciate anything they can afford.

Love usually renders a man color-blind as to complexity.

A lawyer's interest in a case depends upon the worth of his client.

Women seldom use religion as a cloak; it isn't fashionable enough.

If a play has a short run it usually means a long walk for the players.

Sometimes it is difficult to distinguish between contentment and laziness.

Some men trust to luck in this world, and some others are lucky to get trusted.

It isn't the shortcomings of a young man that a girl's father objects to; it's his long stayings.

No true novelist allows his hero to patronize an elevator if the building is equipped with a fire escape.—Chicago News.

HINTS FOR THE LADIES

Skirts are quite full, with cleverly manipulated shirrings to hold the fullness in place.

Brown in combination with cherry red is one of the most fashionable color effects of the season.

Severity is in the background this season, as fashion elicits that dainty fluffiness shall rule.

The box plaits on the newest gowns are no longer stitched down, but are allowed to fly free from the yoke.

Fashion's tendency is decidedly away from mannish styles in hand coverings for street wear this season.

A belt of dull black calfskin is much more swagger with a long coat of woolen stuff than one of self material.

The French conceit of mounting a silk muslin or chiffon gown over several different interlinings of different colors, a chameleon effect being the result of a judicious blending, is seen in several imported gowns.

Almost too elaborate and dainty is a big sofa pillow in pink embroidered satin, which has bouquets of La France roses at the corners, tied on with streamers of pink ribbon.

Very ornamental portiere curtain loops are made of very narrow strips of velvet finished steeply, braided together and finished with tassels of the strips. Sometimes two colors, as white and green, are used, and the result is very tasteful.

A fruit picture framed in dark molding was recently painted upon buckram, the soft yellow-gray color making the most delightful background imaginable for the red apples, purple grapes, green figs and one orange, which were all painted upon it.

An extremely useful belt is made of black satin ribbon, about three inches wide and tied in a little bow to the right side. The ends of the ribbon are turned up two or three inches and stitched at the sides to form little pockets, one end being the length of the pocket longer than the other. The pockets are used for the handkerchief, car fare and small articles.

Chips From Other Blocks

Campaigning in Rhode Island is not a matter of traveling to different points, but of standing in one place and talking loud.—Montgomery Advertiser.

The administration now has some problems that can not be postponed until after the presidential election.—Washington Post.

There is nothing that gives a woman such confidence in her husband as to go to his office and find he employs a homely typewriter girl.—New York Press.

New Jersey will collect \$1,574,802 this year from the railroads crossing her territory. She calls it tax, but the railroads look upon it as toll.—Philadelphia Inquirer.

The Pullman Car Company made \$13,000,000 last year, but even then it is possible that the powers of the company could declare a higher dividend.—Buffalo Times.

A scientist estimates that the earth will last for 100,000,000 years longer. This will give Russia plenty of time to evacuate Manchuria.—Kansas City Star.

The Pullman company has paid a dividend of \$13,000,000. All the people of the country are sleeping partners in this enterprise—but they don't come in on the dividends.—New York Mail and Express.

Mr. Rockefeller should be careful about swallowing a steel trust all at once, since he has just recovered from dyspepsia.—Chicago News.

Just now the Democrats are all talking Cleveland—that is, all except Bryan, Gorman, Hill and Watterson.—Springfield Union.

Mr. Bryan's parting kick at Grover Cleveland leaves no doubt that he went abroad with a stibbed toe.—Boston Herald.

Even though Reed Smoot may lose his seat in the Senate, he has the consolation that nothing can separate him from the weirdest name in politics.—New York World.

After the bunco game the Bogota gang tried to play on Uncle Sam they

KAHN'S THE ALWAYS BUSY CORNER

More News About the Fire!

WE had just about completed our new Annex, and were congratulating ourselves on having successfully re-arranged the entire establishment, when FIRE played havoc in the DRAPERY and MILLINERY DEPARTMENTS. A great amount of goods was damaged by fire and water—some of them were beyond any possible use, [these were sent away] and some were but very slightly damaged. It is to our interest to dispose of these things at any price—and as quickly as possible, and in addition to many specials offered—will make an allowance of

10 PER CENT

on all purchases in every department, except on Sorosis Shoes, Muslins and list goods.

New Shawls
in Many Styles

For general utility there is perhaps no garment quite as much appreciated as a shawl.

Shoulder Shawls

The old time square, shoulder shawls, are again in favor. The new ones, though, show a variety of plaids and checks that are in line with our up-to-date ideas.

All-wool fringed shoulder shawls in plain colors; brown, black and green plaid, red, black, black and white check; many sizes, from the small one that is useful in the home to the large one that is needed out of doors all bought from the mills that made them.

Prices 50c, 65c, 75c, 85c and up to \$7.50.

Black Cashmere Shawls

Fringed, soft, comfortable and stylish; good variety of sizes and qualities. \$1.50, \$2.00, \$2.50, and up to \$8.00.

Umbrella Shawls

Hand-crocheted; many sizes and weights. \$1.50, \$1.75, \$2.25, \$2.50.

Comforters

priced from 95c to \$7.75. \$1.25—Silkoline comforter filled with pure white cotton.

\$1.50 to \$2.00—Extra heavy large size comforter; silkoline cover; figured on one or both sides.

CREMATORY WILL
MOVE OR FIGHT.GARBAGE QUESTION CONTINUED
PENDING DETERMINATION
OF INCINERATORS.

The garbage crematory question was temporarily laid over at the meeting of the Committee on Public Improvements of the Council, last night, for the purpose of giving the Pacific Incinerating Company a chance to determine whether or not to fight in the courts for their contract or to move the plant to another site.

This alternative, Mr. Cuvelier said, was now under consideration by the company. He had seen some members of the council and had been told by them that a portion of the stockholders were in favor of taking their contract into the courts, while others favored the moving of the crematory to a site west of Perilla street, provided they were allowed to retain their status where the barns are now located.

He asked, therefore, that Mr. Meese's resolution ordering the city to advertise for bids for the reduction of city garbage be laid over to await further action by the company.

Mr. Meese said he had no objection to the resolution going over, but not for too long a time.

Mr. Sullivan said that if the company went at it the right way they would, perhaps, be able to secure cancellation of the existing contract.

He said, however, that within his power, instead of being the most unpopular of becoming the most popular company in Oakland.

The Meese resolution was laid over.

NEW SEWER FOR
BROADWAY.COST OF DRAIN ON EACH SIDE
TO BE DEFRAYED BY PROP-
ERTY OWNERS.

At the meeting of the Council Committee on Streets last night, the committee recommended that the City Attorney draw up a resolution of intention for the purpose of replacing the present sewer on each side of Broadway, the expense to be defrayed by the property owners.

Grains of Comfort—Bay City Flour.

ROCK ISLAND JOINS
IMMIGRATION BUREAU.

CHICAGO, Nov. 20.—The troubles of the western roads over the division of the immigrant business have been settled and in consequence the Rock Island will come back into the Western Passenger Association and rejoin the Western Immigration Bureau.

The Rock Island withdrew from these associations shortly after the completion of the El Paso route, because its demands for an extra share of the immigrant business over its new route was refused by the other transcontinental lines. This competition has caused loss of revenue to all the lines.

After meetings lasting two weeks both the Southern Pacific and Santa Fe have agreed to give up a portion of their percentage of the business in order to allow the Rock Island a reasonable share for its El Paso route.

MILLIONAIRE KOHN'S
WILL IS FILED.

CHICAGO, November 20.—The will of David Kohn, who died November 15, leaving an estate valued at \$1,070,000, has just been filed for probate. The heirs at law are: Theresa Kohn, widow; Julia K. Benheimer, daughter, Chicago; Harry D. Kohn and Edward D. Kohn, sons, New York; and Alfred D. Kohn, son, Chicago.

The will authorizes the executors to make such charitable donations as they may see fit, the amount not to exceed \$25,000.

The widow is given all the articles and effects of domestic or household ornaments. The remainder of the estate, both real and personal, is bequeathed to the trustees, to be held in trust. The same remainder is to be given to the widow, and in case of her death, the estate is to be divided equally among the children.

DR. BAKWELL ILL.

Members of the parish of Trinity Episcopal Church are gratified to learn that Dr. John Bakewell, pastor Emeritus of that society, has almost recovered from a painful attack of illness, under which he has lain for a number of months.

Dr. Bakewell, who is now in his 70th year, has been a member of Trinity for several years. He is a native of New York, and has spent much of his life in the ministry.

For several weeks after the institution of Rev. Mr. Macon as pastor of Trinity, Dr. Bakewell assisted in the Sunday services in the church. Dr. Bakewell was visibly enfeebled and went to Pacific Grove for a number of weeks to await recuperation. He failed to obtain what he sought and became so ill that it was deemed expedient to bring him home.

Since his arrival here, Dr. Bakewell has been confined to his room, but his friends hope that he will soon be able to be about again.

ADOPTED THE TWIN.
AND BUILT HIM UP.

A lady of Des Moines, Iowa, who recently adopted a baby boy had an experience in feeding the youngster that may prove interesting.

She says: "Three months ago I took a twin baby. He was so weak and puny at the time that I believed I would never be able to raise him."

"I found that the only food that he could keep on his stomach was Grape-Nuts and when I began to feed this regularly to him he began to thrive."

In two weeks he showed marked improvement and he is now a fat healthy boy and has at least caught up with his twin sister who was always ruddy and healthy. He is certainly a fine little fellow, thanks to a fine pure and scientific food. Name given by Postum Co., Battle Creek, Mich.

Grape-Nuts contains all the constituents of a complete food and the whole is predigested (by a purely mechanical process) so the very weakest stomach will digest it. It is the most scientific food in the world, suited to all ages. See the recipe book in each package.

Look in each package for a copy of the famous little book, "The Road to Wellville."

THAT EXTRA BLOCK TO
JOYCE'S
SAVES LOTS OF MONEY

COUNCIL RECOMMEND MANY
IMPROVEMENTS.Favorable Report on Bids, Outlet
Sewer, and Requested Change in
Street-Lighting Schedule.

There were meetings of several committees of the City Council last night, at which quite an amount of propositions for public improvements were disposed of.

AUDITING AND FINANCE.

The resolution for the compensation of the city auditors at a cost not to exceed \$250 was recommended.

The resolution authorizing the Mayor to appoint an Inspector of streets for a period of two months, at a salary of \$100 per month, was recommended.

The resolution appropriating \$75 for the repair of the engine No. 2 and a like amount for repairing engine No. 1 was adopted.

The committee decided to report denying the application of Charles Beach for rebate of \$25.00 on a higher license.

It also decided to recommend the petition of the Society for Prevention of Cruelty to Animals for repair of a shed for housing the animal ambulance, provided the City Attorney advised that the work could be done.

ORDINANCE AND JUDICIARY.

The petition of the Centennial M. E. Church for a cancellation of assessment on property which is used as church property was referred to the City Attorney to ascertain whether the assessment could be cancelled, and the approval of the Assessor was asked to accompany the petition.

The changing of the grades on Seventeenth avenue, from East Nineteenth street to a point 150 feet northerly, and on Seventeenth avenue, from East Twentieth street to East Twenty-first street, was recommended.

STREET COMMITTEE.

The petition for the rebuilding of Boulevard Terrace was laid over and the Clerk was instructed to ascertain from E. F. Adams whether the proposed roadway was to be built on that thoroughfare.

The sewer of East Seventeenth street, from Ninth to Tenth avenues, was recommended.

The petition of George I. Sawyer and C. T. Tooker for the construction of a vitrified iron-stone pipe sewer on East Fifteenth street from the sewer on Tenth street to the sewer on Ninth avenue was recommended.

The resolution authorizing the Board of Public Works to instruct the Superintendent of Streets to place screenings on the main park in the public park from Eleventh and San Pablo to Fourteenth street, was recommended.

The resolution giving twenty feet of notice for laying a sidewalk, six feet wide on the east side of Telegraph avenue, from Claremont avenue to Fifty-eighth street, was recommended.

The resolution directing the City Engineer to prepare plans and specifications for a sewer in the vicinity of Twenty-

fourth and Fourteenth street and Twenty-second avenue was laid over.

LICENSE COMMITTEE.

Seven requests for sales licenses were presented, five of which were new. It was decided, on suggestion of Mr. Elliot, that the new applications be laid over, because they could not be acted upon until the next regular meeting of the council.

It was decided to recommend the petition of Charles F. Pepper, for a place at 465 14th street and expiring June 17, 1904.

The application for liquor licenses laid over were made by M. Brown, 982 East Fourteenth street; S. Benedetti, 1040 Seventh street; F. A. Grier, 1840 Seventh street; Chas. Pepper, 465 14th street; Williams & Lemons, 906 East Fourteenth street; F. Belle, 1616 14th street; and John Slavich, 417 Thirteenth street.

STREET LIGHTING.

George E. Babcock, Superintendent of Fire Alarm and Police Telegraph, appeared before the council committee on Street Lighting last night, stating that the city was not receiving any credit therefor because the police go off duty before the time the lights are supposed to be turned on.

The committee decided to recommend the same to the council, although Mr. Wallace said he would like to have the lamps burn later in the morning than they now do.

Babcock alleged that this arrangement would be to the benefit of the city, inasmuch as many of the lights now go out before they should in the morning and the city was not receiving any credit therefor because the police go off duty before the time the lights are supposed to be turned on.

The city was not receiving any credit therefor because the police go off duty before the time the lights are supposed to be turned on.

The city was not receiving any credit therefor because the police go off duty before the time the lights are supposed to be turned on.

ALWAYS TIRED
NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health.

One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the blood is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system.

Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. It is a vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

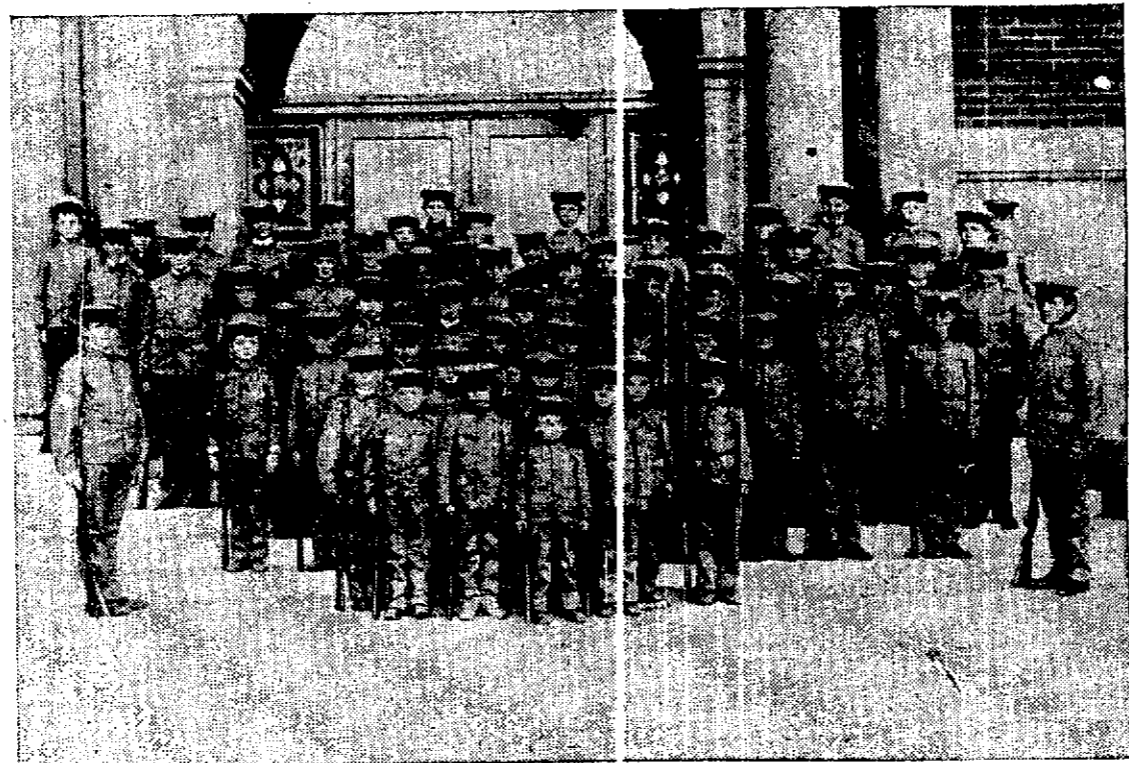

For over four years I suffered with general debility, causing a thorough breaking down of my system. My cousin who had been benefited by S. S. S., told me about it. I tried it and it cured me. I am now a healthy man, and I can say to all who may feel the need of a thoroughly good blood tonic, S. S. S. is the best.

REDSKINS WILL PLAY AN ALL-
CALIFORNIA TEAM ON
CHRISTMAS DAY.

BERKELEY, November 24.—Surveyors are now at work on the proposed new football and baseball field to be located on the Hillegas tract, a large section lying to the south of the University of California. While only preliminary surveys have been made, it is expected that there will be necessary to lower the greater portion of the level of the tract ten feet. On the west side a bank fifty feet high on which the stands will be placed will be thrown up. On the east side the excavation will leave a high bank, which will be brought to the level of the embankment on the opposite side.

It is the intention to erect wooden bleachers at the top of the bank, the foundation as the earth of the embankment has hardened.

It has been estimated that the cost of excavation will be between \$1,000 and \$15,000, and that the creation of the new field will bring the total cost to \$20,000.

Unless some patron of the University will contribute to the cost, the expenses will be borne by the Associated Students, who have a surplus of \$6000 in their treasury and \$1000 more in cash.

The Permanent Secretary of the High Court of Foresters was well received.

CHURCH SOCIAL.

The ladies of the Christian Church gave an enjoyable social last night at the residence of Mrs. J. C. Tuttle, 2325 Durant avenue. A general good time was had by all and delicious refreshments were served.

CONFIR THIRD DEGREE.

The third degree was conferred on eight candidates at the regular meeting of Berkeley Lodge, No. 276, I. O. O. F., last night.

Thursday, December 3, the lodge will receive a visit from the Grand Lodge of California, Grand Master of the State. At his request a special initiation will be held. The work in the lodge room will be followed by a social.

PERSONAL MENTION.

Mrs. E. C. Peart, who has been visiting for several months at her mother's home in Berkeley, has returned to her home in Colusa.

Mr. J. H. Smith, who has been visiting relatives in Woodland, returned to his home in Berkeley yesterday afternoon.

NOTES FROM LODGES AND SOCIAL WORLD.

BERKELEY JUNIOR CADETS.

BERKELEY, Nov. 20.—The Berkeley Junior Cadets will have as their guests tomorrow the Columbia Park Boys of San Francisco. Under the leadership of Sidney Pelotto the visitors will march to Harmon Gymnasium where they will be addressed by President Benjamin Ide Wheeler and Captain Henry de H. Waite, commandant of the University Cadets.

At two o'clock in the afternoon the Columbia Park boys will give a minstrel show in Shattuck Hall and in the evening will give a vaudeville performance at the same place. The youngsters have been thoroughly trained in military tactics, gymnnasium performances and even vaudeville. They earned considerable money by touring the country this summer.

ASS RESOLUTION OF CONDOLENCE.

the friend and playmate Verda Buck, we have met a great loss. "As we meet from Sunday to Sunday we shall miss her. There was always a ready answer to her prayer and testimony. We are glad that we hal her with us. We thank God for her light, unselfish life. We hope to pr it by the good example she set us.

"We feel very sorry for Mrs. Buck and her family in their sorrow and pray that God will help them to bear it.

ARRANGE EXHIBIT FOR FAIR

SAN LEANDRO BOARD OF TRADE
TO MEET MON.
DAY.

SAN LEANDRO. Nov. 20.—The board of trade will meet Monday night to listen to the report of the special committee appointed at the session held November 9, to gather material for an exposition to be held at the Louisiana Purchase Exposition next year. The board will co-operate with the Alameda County Agricultural Fair Committee in holding a world's fair, showing the advantages of the county. Each district will have a separate section of the book, in which will be given a full and complete advantage of each part of the county.

As soon as the weather clears, a photographer will be secured to take pictures of the hills, which cuts will be made in the booklet.

One of the members of the committee, John S. Frank, will then give an article containing facts and figures concerning the fruit, vegetable and other products of the county.

There will be an exhibit also, either of the seeds, the fruit, or both of the best known products of the neighborhood, such as apples, apricots, rhubarb, pears, currants, pickles, peaches, blackberries, raspberries, loganberries, corn, onions, etc.

Samples of fruits and vegetables will be sent to St. Louis from time to time during the progress of the exposition, and they will be sent to the fair.

In case no fruit can be shipped seeds will be sent instead.

STEREOTYPICIAN LECTURE.

There will be a stereotypician lecture to meet the ladies of the Ladies' Aid of Europe, with especial reference to Portugal and Spain.

At eight o'clock will be shown a dance will conclude the evening's entertainment.

PORTUGUESE DANCE.

The dance to be given in thanksgiving to the ladies of the Ladies' Aid of Europe, will be most successful, as a large number of tickets have been sold. The dance will be given in the U. P. E. Hall on Broadway avenue.

PERSONAL.

B. D. Gray of San Lorenzo avenue has been very ill.

Mrs. J. W. Bolen has been at Point Richmond establishing a lodge Yeomen.

H. Miller and family have moved into the H. E. Peacock cottage on Estrella avenue.

Daniel McCarthy was in Oakland business yesterday.

COOKS UNIONIZE NEW YORK HOTELS AND RESTAURANTS.

NEW YORK. November 20.—At an enthusiastic meeting of cooks and assistants plans have been laid to unionize the kitchens of every hotel, restaurant and club in the city. The union is the New York Culinary Association. There are said to be 2000 men in the ranks of the association, and of all shades and degrees of chefs, from the high salaried men up to the lowest grade of kitchen boys on the Bowery.

The meeting was addressed in four languages and the enthusiasm grew to a big delirium from the German waiter to the French chef, and the union of co-operation with the cooks.

MANDOLIN CLUB
FORMED.

MUSICAL ORGANIZATION STARTED AMONG RESIDENTS OF ELMHURST.

ELMHURST, Nov. 26.—A Mandolin club has lately been formed by the musically inclined young people of this vicinity. The society has been named the Elmhurst Mandolin Club. Its meetings are held every Sunday evening at 8 o'clock at the residence of the members. The first few rehearsals have been held at the residence of Miss Edna Schetter on Grand avenue, where the club will meet again tomorrow night.

The instructor is C. P. Pederson of Oaklandland. Although the organization has already only three meetings they have already found their place. The membership at present numbers seven, but many will probably join in the near future.

Refreshments are served and an enjoyable social time is usually spent after each rehearsal.

The members of the club are: Edna Schetter, Hazel Wilson, Ethel Petkovsky, Edna E. Smith, James Goodnight, William Parker, Myrtle Parks, Teacher C. P. Pederson.

SENT FLORAL PIECE.

The carmen employed on the Hayward division of the Oakland Transit sent a beautiful floral piece to-day to the bride of George Spink, a local mechanic of the Key Route, who was accidentally killed in one of the new electric trains.

BON BON SOCIAL.

Tomorrow evening in Red Men's Hall will be held the bon bon social which the local lodge of Artisans has arranged for its friends. A literary entertainment will be rendered, followed by dancing.

TO INITIAE PALE FACES.

The Braves of Comanche tribe of Red Men will be taken with them to the places to Fruitvale to be initiated in the order by the degree team of Ah Wah Ne tribe of that place. An early morning start will be made. The society members will also be taken in. Ah Wah Ne tribe is nicknamed today and a banquet will be given after the initiation in honor of the event.

PERSONAL.

Frank Hopkins was a visitor in San Francisco last evening.

PAN DOES NOT CRY FOR WAR

NEW YORK, November 26.—Quintus Kaurua, the Japanese Premier, is quoted by the Tokyo correspondent of the Manchester Guardian to the effect that it is a great mistake to think that the Japanese are eager to fight, says a Herald correspondent.

"The outer world," he said, "is to be of one man who shouts for war, but minority and nine who do not are not unrepresented."

If war should be forced upon us by

WILL WED NEXT
WEDNESDAY.

MISS MABEL JANIS TO BECOME
BRIDE OF C. PRATT.

EMERYVILLE, Nov. 20.—The engagement of Miss Mae Janis, daughter of Mrs. M. E. Janis of 5874 Vallejo street, to Charles E. Brown, a young business man of San Francisco, has been announced. The marriage is to occur at 8 o'clock this evening at the home of the bride-to-be.

Miss Janis' engagement will come as a pleasant surprise to her friends. She is in the latter place, being a member of several social organizations among the young women of the city.

After their marriage Mr. and Mrs. Brown will reside in San Francisco.

AT HALF MAST.

All the buildings of Key Route Syndicate displayed flags at half-mast yesterday out of respect to the memory of the late George W. Brown.

REPAIRING STREETS.

The citizens in the vicinity of the paraffine works and sto proving the condition of the streets in that section. It is proposed to macadamize the main road.

WILL START SOON.

Responsibly reports indicate that the opening of the through line on Fortieth street will not be far postponed. The date of opening will be determined by the date of the arrival of the new cars.

HOUSE IMPROVED.

The old two-story house which was recently bought by the Transit Company and moved across East 2d street to a vacant lot in the rear of the race track is being repaired. It will be put in a condition for occupancy soon.

TOWN TAKES.

Many out of town property-owners called at the City Clerk's office yesterday to pay up tax bills. Among the largest payments made was one in the half of the San Francisco Savings Union.

REVOLUTION IN SAN DOMINGO.

NEW YORK, Nov. 21.—Guelto Becard has been appointed commander-in-chief of the revolutionary forces which are besieging San Domingo, says a Herald dispatch from Port-au-Prince.

President Gu has one thousand soldiers defending the capital. Fighting taken place on the city. Short of meat, milk, coal and vegetables.

ROCA JUSTIFIES AMERICA'S POLICY.

NEW YORK, Nov. 21.—The Tribune, the New York Evening Post and the Herald dispatch from Buenos Aires, Argentine, an article, in which says the recognition of the United States of Panama by the United States is fully justified by the state of the country's affairs in Colombia for many years.

ROSE FRIE

A dose of the Bitters before meals will create a healthy desire for food and assist the stomach in the work of digestion.

WILL ACT FOR
CHARITY.

HAYWARDS' YOUNG LADIES T
GIVE PLAY TOMORROW
NIGHT.

HAYWARDS. November 25.—The entertainment planned by the Ladies' Improvement club to raise money for the new opera house will be tomorrow night at the Opera House, and promises to be most successful.

A one-act curtain-raiser written by Miss Kinsley and entitled "Settled Out of Court" will be presented by Miss Obermuller, Miss Kinsley, Miss Obermuller, and Mr. Welch. Following this will be a musical sketch, "The Dress Rehearsal," in which fifteen ladies take part.

The story of this little musical is as follows:

Miss Jones, the principal of "Jones Academy for Young Ladies," plans a grand party and supper for the close of the school term. She enlists the aid of the school to perform one of "Shakespeare's Charades," being assured that a charade is a perfectly innocuous and harmless amusement. The girls, however, plan a burlesque on "Cinderella," which Miss Jones is led to believe is a harmless joke.

Mrs. Jarvey, a retired actress, is engaged to train the girls in their part, and she is really a new pupil of the place, she claims, but finally is won over by the girls and gives her hearty assistance.

When the girls rehearse "Cinderella" is rehearsing her part when Miss Prudence Pinchbeck, a visitor, enters, and believing her to be in reality a poor pupil who has starved and beaten, she hastens away for the police.

When the rehearsal continues, Sarah Ann, who is always eating at Sophomore's Spivins, who is wildly excited by the progress of the rehearsal, as do also Miss Jones and Miss Epinar, the French governess, who is not quite satisfied with the progress of the rehearsal. Finally Miss Pinchbeck returns with the police to arrest Miss Jones and rescue Miss Jarvey. The celebration ensues and everything ends happily.

SECURED GOVERNMENT POSITION.

Daniel Luze, the son of D. Luze, who was killed in the war, has secured a position in Santa Cruz, some time ago passed a civil service examination. He has just received notification of his appointment as a well paying government position on Angel Island.

MAY BE ANOTHER AMPUTATION.

Trustee Leonard Graham has learned that his father, who has been suffering from an amputation of the leg, has suffered a relapse. Gangrene has set in, and another amputation of the leg is necessary. It is doubtful if the old gentleman will be able to withstand a second operation.

BUYING STOCK.

James McQueen, formerly Health Inspector at Honolulu, has been in Haywards the past few days buying stock and making the Haywards where will make a large profit.

FARMERS' MEETING SATURDAY.

Tomorrow morning in the Town Hall the Farmers' Union will meet and discuss plans for the Institute to be held in Haywards next month.

CLASSES TO HOLD DEBATE.

FRESHMEN WILL MEET THE
SOPHOMORES IN ANNUAL
FORENSIC CONTEST.

PERKINSLEY, November 20, 1917.
The annual contest between representatives of the Freshman and Sophomore classes will be held tomorrow night in Stiles Hall. The question to be discussed is Resolved, "that a Democratic Government is Adapted to the French People."

The affirmative side of the question will be upheld for the class of 1916 by William S. Andrews, Chairman of the affirmative, and Norman A. Moxon, the representatives of the class of 1917, who will uphold the negative, are: Norman A. Moxon, Elmo Buckingham and Eugene M. Peltoite.

Hart Greensfelder, chairman of the intercollegiate debating committee, will preside, and Professors Martin C. Flaherty, Professor Adolph C. Miller and L. A. Overstreet will act as the judges.

THE FEAR OF HUMBUG

Prevents Many People From Trying
Good Medicine.

Stomach troubles are so common and in most cases so obstinate to cure that many people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. They are often misled by the "cures" they have been hounded to try, especially in medicine.

This fear of being humbugged can be carried too far so far, in fact, that many people are apt to regard even weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universal as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines, for the reason that they are not a secret patent medicine, no secret is made of the ingredients, and analysis shows them to contain the natural digestive ferments, pure antiseptic pepsin, the digestive acid, Golden Seal, bismuth, hydrates, and such. They are as good as medicine, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of the success.

Cathartic pills never have and never can cure indigestion and stomach troubles, because they act entirely on the bowels, whereas the whole trouble is in the stomach.

**SURPRISE PARTY
TENDERED.**

PLEASANT EVENING SPENT BY
YOUNG PEOPLE AT GOLDEN
GATE.

GOLDEN GATE.—A surprise party was tendered Bert Gill of 1014 Fifty-seventh street last Tuesday evening by a number of his intimate friends. The evening was spent very pleasantly in cards and music. The guests afterwards were seated to an elaborate supper.

Among those present were Captains Riley, Mrs. Maggie Howard, Leon L. Meyer, Paul L. Meyer, H. L. Meyer, M. Graham, Miss Carpenter, Edward Palm, J. Walker and M. Hyland.

STEADILY IMPROVING.

Rev. Father Heslin of St. Columba's Church, who broke his left leg last Friday, is reported as steadily improving. He is still confined to his bed, however.

WELL KNOWN HERE.

Miss Mabel Juns, whose engagement to Mr. Charles Pratt of San Francisco has just been announced, is well known in Golden Gate and is a member of several organizations of this place.

You hardly realize that it is medicine when taking Carter's Little Liver Pills; they are very small; no bad effects; all troubles from torpid liver are relieved by their use.

ON

THE SEA
OF LIFE.

The Dangerous Rocks.

On the sea of life are left many wrecks. In the majority of cases these failures are due to the excessive use of alcohol. One of the most prolific causes of acquiring the alcohol habit in these days is a frequent use of alcoholic compounds advertised as tonics for the cure of everything. Undoubtedly there is some virtue in the drugs entering into these compounds, but the good such drugs may do the system is counteracted by the ill effects of the alcohol. Many times the persons taking these patent medicines feel much improved for a little time through the stimulating effects of the alcohol in the medicine, but there is apt to be a reaction in which the person is much depressed and in low spirits—finally the habitual use of such a remedy will become dependent upon its false strength for courage to go through the daily duties. The State of Kansas not long ago exposed the practice of many people buying these alcoholic compounds as "a tipple" and will require manufacturers and dealers in said medicines to observe the same rules and laws as do the distillers of whiskey—and the remedies will be prohibited from general sale.

On the sea of life a woman feels cast adrift when she suffers under pain. She feels as though man was privileged to enjoy life, while woman was meant for suffering. It was not intended so however. God meant woman to be healthy and not to suffer at any period. Corsets, tight shoes, bad circulation, catching cold, thin blood and other ailments of present life have brought about an ill condition of affairs.

Treatment of the nervous system and the womanly organism by alcoholic compounds has always been, in the opinion of Dr. R. V. Pierce, who is founder and chief medical director of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., a very bad practice. When he came to find the right medicine for the treatment of woman's peculiar disease, he hit on a combination of nature's most valuable health-giving agents, a combination of roots, herbs and barks, in a solution which did not contain a particle of alcohol. It is an easy experiment for any one to test a medicine for alcohol, as a simple distilling of the liquid will prove whether alcohol is contained in it or not. Dr. Pierce does not claim for his "Favorite Prescription" that it will cure all diseases, or that it will cure men. It is a woman's medicine only, and in woman's diseases it has been found effective in thousands of cases. The "Favorite Prescription" stands alone as the one and only remedy for those distressing common forms of weakness, possessed of such positively specific curative properties as to warrant its makers, the World's Dispensary Medical Association, in binding themselves to pay the sum of \$500 in legal money of the United States in any case of the disease in which, after a fair and reasonable trial of the treatment, it fails to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee. No other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer, no other remedy has such a record of cures on which to base such a remarkable offer.

Miss Emma Weller, Secretary of the Young People's Christian Association, at 1818 Madison Avenue, New York City, writes: "Your 'Favorite Prescription' is a boon to sick and tired women, for it cures them when other medicine fails. I know whereof I speak. I have had experience with it. For fourteen months I had constant headaches; seemed too weak to perform my daily duties, and when the day was over I was too tired to sleep well. I suffered from nervousness and indigestion, and everything I ate distressed me. Doctored with different

CRELLIN HOME IS
ROBBED.THIEF SECURES A LARGE
AMOUNT OF JEWELRY AND
ESCAPES.

Nimble porch climbers were abroad in Oakland last evening and made successful raids in the early hours at the residence of Thomas Crellin, president of the Central Bank, 1397 Alameda street, and William Bannan, a broker of San Francisco, 1457 Harrison street. At the former place jewelry valued at upwards of \$1000 was secured and at the latter the loss exceeded \$500.

At both places the manner of operation appears to have been identical, and it is believed that the work was done by the same person.

The thefts were discovered at each residence about 7:30 o'clock. The families were partaking of the evening meal when the thief or thieves climbed the porch and entered the upper floors, where they worked quickly, gathering together everything of value in the form of jewelry.

Reports of the loss were made to police headquarters about the same time, that from the Crellin residence being a little the earlier.

Captain Petersen made the first examination of the premises after the reports were received and detectives were also sent to investigate. The only thing discovered was the expertness and effectiveness of the thieves, the houses had been burglarized, and that the men or men who did it were experts in their line of work.

At the Crellin residence the family was at dinner and the servants were variously employed on the main floor, so that the thief had free access over the porch to a bedroom window, through which he gained entrance. Mrs. Crellin's apartments received first attention, and jewelry boxes, cigarette and cigar cases were hastily opened with keys from the simple study in possession of the worker. Everything that would pass for jewelry or be of value in the morning was taken.

Nothing escaped the keen and discriminating eyes of the looter. In the rooms of Mrs. Crellin the thief was equally complete and the domestic disturber made his escape, leaving muddy footprints and general disorder.

At the Bannan residence there was evidence of the same methods of work. The rooms were searched and the thief's exit by way of the front porch and a convenient bedroom window, and ransacked the apartments.

He gathered up all the jewelry he could find in the brief time at his disposal. The police accept the theory that one man did both jobs and succeed that the other night burglar, that his apprehension is likely to be a very difficult matter if the man does not allow his sense to make him to be suspected that the principal in these raids may be the man who entered the house of W. Morgan of Berkeley early this week, where articles were also taken valued at about \$2000.

James Mourour, aged 30 years, the sole support of his aged mother, is dying at his home, 17 Valdez street, as the result of a gun shot wound received last Tuesday while hunting in the San Leandro marshes.

Mourour left his home early Tuesday morning for the marshes. While sitting in his boat his gun was accidentally discharged, the contents lodging in the groin. The boat had drifted into a mud flat by this time, and Mourour, suffering intense agony from his wound, lay down to wait the tide, which would not come in for twelve hours. He tried to attract the attention of two other hunters, but his efforts were futile and when he tried to rise, he fell back unconscious.

At daybreak Mourour discovered that the tide had not moved his boat much farther than the place it had been the night before and he began to despair of ever reaching his home. He lay suffering in his boat until noon when the water rose higher and the boat moved down Alameda creek toward Oakland. Mourour tried to guide it with an oar, but the oar broke and he was left to drift. He again became unconscious. As the boat was drifting under the iron bridge which crosses the creek at Alameda at Park street, several persons, noticing the occupant's helpless condition, went to the rescue. They pulled the boat ashore and lifted Mourour out. They revived him and he told them where he lived. They took him home and summoned Dr. T. E. Holmes and Dr. W. J. Wilcox, who did their best to relieve his suffering. The doctors state that his recovery is very doubtful, as the nature of his wound, together with the exposure he had been subjected to, made his case very critical.

They pulled the boat ashore and lifted Mourour out. They revived him and he told them where he lived. They took him home and summoned Dr. T. E. Holmes and Dr. W. J. Wilcox, who did their best to relieve his suffering. The doctors state that his recovery is very doubtful, as the nature of his wound, together with the exposure he had been subjected to, made his case very critical.

At daybreak Mourour discovered that the tide had not moved his boat much farther than the place it had been the night before and he began to despair of ever reaching his home. He lay suffering in his boat until noon when the water rose higher and the boat moved down Alameda creek toward Oakland. Mourour tried to guide it with an oar, but the oar broke and he was left to drift. He again became unconscious. As the boat was drifting under the iron bridge which crosses the creek at Alameda at Park street, several persons, noticing the occupant's helpless condition, went to the rescue. They pulled the boat ashore and lifted Mourour out. They revived him and he told them where he lived. They took him home and summoned Dr. T. E. Holmes and Dr. W. J. Wilcox, who did their best to relieve his suffering. ANOTHER SURPRISE FOR THE FORM PLAYERS.

Canejo Suddenly Comes to Life and Wins Fifth Race With Ease at 12 to 1—Bad Starting a Feature.

The feature of yesterday's racing was the reversal of form shown by Canejo in the fifth race. The mare finished last in a field of eleven starters last Saturday and gave rise, to the opinion, among form players, that she was not ready. Yesterday she galloped home an easy winner over such cracks as Loyal S., Galanthus and Rollick. Because of the muddy track Rollick was thought to have the best chance and was made 9 to 10 favorite for the race. The horse performed indifferently and finished fifth. Canejo was first by four lengths and Galanthus and Loyal S. had a hard fight for the place, it going to the former by a nose.

The track was a sea of mud and it rained nearly all afternoon. It was the worst kind of slushy going and after the horses had gone the furlong it was almost impossible to distinguish them as both horses and jockeys were all the same color, i. e., mud. Very little time was made considering the condition of the track.

The start of the fourth race was a very poor one and the talent, who played Horton heavily, certainly had some kind of a kick coming. The barrier was sprung with Horton facing up the track and being held by the assistant starter. He was finally off but was fifty-seven-five yards behind the field. He ran a grand race and closed up the bunch at the three-quarter pole and finished a strong third. Miracle II got a good start and won. C. B. Campbell got the place.

There was another bad start in the last race when Byron Rose refused to leave the post until the rest had a dozen lengths' start. He ran a good race and captured the place. There was nothing to the race but Ben Macdhuil and he was heavily played at 9 to 20. He won easily and Arcade managed to show.

Outside of Canejo the only long shot to win was Alta G. in the first race. Toto Gratot was the most favored and cold at 4 to 1. Amasa and Cherries divided the second choice at 11 to 2 but none of the three finished inside the money. Alta G. overcame 9 to 1 but as no one looked upon the filly with favor, her price lengthened to 15 to 1, at which price she went to the post. She was first by three-fourths of a length from Flourish who beat Foul Play by a length and a half for the place.

Following is a summary of the events:

First race—six furlongs.
Alta G. 94 (Lewis), 15 to 1..... 1
Flourish, 110 (Fell), 15 to 1..... 2
Foul Play, 99 (Chandler), 8 to 1... 3
Time, 1:17.
Toto Gratot, Past Master, Merwan, Dug Martin, Amasa, Achilles, Nullah, Cherries and Martin Brady also ran.
Second race—five and one-half furlongs.
Dorice, 107 (Hall), 2 to 1..... 1
Arad, 99 (Foley), 10 to 1..... 2
Metakalia, 100 (Chandler), 10 to 1 3
Time, 1:10 1/4.
Durbar, Avenger, The Cure, Ruvia, Miss Ringlets and Scherzo also ran.
Third race—six furlongs.
Matt Hogan, 107 (Hall), 11 to 20... 1
Berendos, 105 (Adkins), 5 to 1.... 2
Laureate, 106 (Donovan), 25 to 1... 3
Time, 1:15 1/4.
Sandy and Little Margaret also ran.
Fourth race—seven furlongs.
Canejo, 103 (Perrell), 12 to 1..... 1
Galanthus, 106 (Foley), 16 to 5.... 2
Loyal S., 111 (Powell), 6 to 1..... 3
Time, 1:30 1/4.
Myrtle H., Rollick, Rose of May, Monna and Parafall also ran.
Fifth race—seven furlongs.
Canejo, 103 (Perrell), 12 to 1..... 1
Galanthus, 106 (Foley), 16 to 5.... 2
Loyal S., 111 (Powell), 6 to 1..... 3
Time, 1:30 1/4.
Myrtle H., Rollick, Rose of May, Monna and Parafall also ran.
Sixth race—one mile.
Ben Macdhuil, 112 (Adkins), 9 to 20 1
Byron Rose, 109 (Wilson), 7 to 1... 2
Arcade, 103 (Martin), 10 to 1..... 3
Time, 1:46.
Bill Massie and Oro Viva also ran.

NOTES OF THE TRACK.
Matt Hogan seemed to revel in the going yesterday and simply romped home all the money and it was a case of where confidence was not misplaced. Jockey Hall carried off the honors of the day yesterday by landing two mounts under the wire first. Lewis, Knapp, Perrell and Adkins, were the other pilots that rode winners.

Perrell used bad judgment in riding Horton in the fourth race. After being left over fifty yards at the start, he tried to make up the distance too quick and Horton had nothing left to show.

Ben Macdhuil is in grand form and was pounds too good for the company he was in yesterday. He carried the top weight of 112 pounds and then ran away from the field. Adkins was the famous jockey, Johnny Reiff, was among the visitors at the track yesterday.

YOUTHFUL THIEVES SENT TO PRISON.

Two youthful criminals were sentenced to terms in the State's prison this morning by Judge Ellisworth. Both of them pleaded guilty and made no excuses for their offenses.

Salvador Rocco, a youth about 18 years of age was sentenced for the period of one year at San Quentin for stealing a bicycle and for stealing a bicycle. He was given an additional three months. Rocco said that his family lives at Marshall's, a station on the narrow gauge railroad in Marin county, and that he had been working there for some time. He had no other excuse for his crime, other than necessity and did not care to have his cases postponed but pleaded guilty and wanted to take his punishment without delay. His people do not know of his present plight.

George L. Taylor, a young man of about the same age pleaded guilty to having stolen a bicycle and was sentenced to six months at Folsom. He had taken the wheel and attempted to sell it and showed what purported to be a bill of sale which he had written.

THE HUB

WINTRY WINDS bring forth the "Fulton" and "Broadway Box" Overcoats bearing this famous mark

Alfred Benjamin & Co. MAKERS NEW YORK

The "Fulton": exclusive kerseys, mellons, friezes, vicunas, Scotch chevrots; 47 inches long, full skirts; new cloth turn-up at bottom to protect silk lining. The "Broadway Box": same rich fabrics; 44 inches; more conservative, but charmingly correct. Warmth, style, fit, workmanship, and wearability are here in a happy combination that none but BENJAMIN tailors have ever seemed able to produce.

The price is right. Your money back if anything goes wrong. We alone sell them in this city.

GIRLS' GLEE CLUB OF THE OAKLAND HIGH SCHOOL.

The Girls' Glee of the Oakland High School will present a fine program tonight at the Unitarian Church. The affair is a benefit tendered to the Oakland High School Athletic Association. A large attendance is anticipated.

SPECULATION ON OUTCOME.

OPINION ON GARDNER-FITZSIMMONS FIGHT IS EVENLY DIVIDED.

SAN FRANCISCO, Nov. 20.—The Yosemite Club's exhibition next Wednesday night to decide the light heavyweight championship of the world is attracting immense interest in the sporting world. Among San Francisco sporting men this opinion is divided as to whether Gardner will retain his title or have it wrested from him by Fitzsimmons. The latter has already won two championship titles in America. The first, the middle, when he defeated Jack Dempsey in New Orleans, thirteen years ago, and seven years later when he won the heavyweight championship from Jim Corbett at Carson.

Naughton, the astute expert, rather inclines towards Gardner. Harry Corbett thinks the chances of the man who hails from Ireland are the best. Baggerly of the Bulletin agrees that youth will triumph over age. George Harting, the veteran timekeeper, shares in these opinions, but said old Billy Jordan, who has announced a dozen of the lucky Antipodean's contests, can't see anything of it but the ex-Australian.

Here is what Jordan says: "I saw Fitz when he first boxed McCarthy in this country thirteen years ago. He was as clever as a fox and for stealing a bicycle later I went to New Orleans to see him box Maher. Peter had him all but out in the eleventh round, but Fitz came back in the twelfth and won with one whistle."

What did they say in Madison Square Garden in 1900 when the tough Irishman was put to put that good old man up against that young fellow? And the very next morning they changed their tune when Fitz changed the complexion of the contest. Fitzsimmons for mine."

During the last ten days Fitzsimmons has added eleven Sam Benes, the Olympic Club heavyweight to his staff. Fitz boxes eight rounds daily, going four rounds alternately with Kennerly and Kennedy, who rounds with Berger are marked by clean hitting and open boxing, most of the time being to the head. With Kennerly it is different. His instructions seem to be to work for the body. Perhaps this is because it is thought that will be Gardner's objective point. Anyway, each day finds Fitz confining himself to hitting Kennerly's body punches and winding up the last round with a little punching on his own hook.

The betting has been of a desultory character so far. What money that has been placed has made Fitz a ten to six favorite. Harry Corbett, considered a good judge of "prices" and the odds will be at 10 to 8 at the ringside with Fitz on the long end. The real betting, however, is the contest for the title.

The Yosemite Club expects the attendance to rival the Corbett-Jeffries house. Messrs. Kohl and Racine are handling the seats reserved for the Oakland contingent at 411 Twelfth street.

STROUD ELECTED WILL BUILD NEW HOME.

OAKLAND BOY WILL LEAD BLUE AND GOLD NEXT YEAR.

Benjamin K. Stroud, '05, will general California's eleven next year. He was elected captain by the men who played in the game against Stanford a week ago at the football banquet held at the Zinkland in San Francisco last night.

At the table were Certe Stroud, Guards Overall and Stow, Tacles Helmutler and Howard, Ends Huden and Demeritt, Quarter-back More, Half-backs Mint Whipple and Snedgar, Full-backs Stern and Perce, Head Coach Whipple, Assistant Coach Hall, Manager, Deoto and Trainer Christy. During the meal, which lasted from 6:46 to 7:30 o'clock, bits of paper were distributed and each player made the name of the eligible man he favored for next year's captain. Captain Overall presided. There was no speech making, but merely the nomination of the four men eligible to captaincy, and then a secret ballot.

The committee put up the four candidates—Stroud, Helmutler, Howard and Demeritt. Stroud was chosen.

The newly-elected captain has played in four games against the Cardinal, once on his Freshman team, and three times on the Varsity. He was the only candidate for the position who had played in three intercollegiate contests. Before coming to college he played on the Oakland High School team for two years as guard and center. He played on his Freshman team and has passed the ball for the Varsity in two intercollegiate games.

He is an Oakland boy, 22 years of age, 210 pounds in weight with his clothes on and 6 feet 1 1/2 inches in height. Stroud is the fourteenth successive Californian chosen to lead the Varsity eleven at the State University, the sixth successive captain taken from the line and the sixth leader from Oakland. The captains in their order are: 1892, Paulsen, R. H., of San Francisco; 1893, Hunt, L. B., of Santa Barbara; 1894, B. of Bonanza, of Alameda; 1895, Battle Sherman, R. H., of Oakland; 1896, Ramme, F. of Oakland; 1897 and 1898, Hall, H., of Oakland; 1899, Whipple, L. T., of Decoto; 1900, Pringle, R. C., of Oakland; 1901, Womble, F. C., of San Francisco; 1902, Albertson, L. T., of Redding; 1903, Overall, F. E., of Visalia; 1904, Stroud, C. of Oakland.

Do you know it? Rubber soles; something new. Better and cheaper than rubbers. We know how. Modern Shoe Repairing Factory, Eleventh and Clay streets.

WINS THE PLACE OF EDITOR.

HARRY BRUNING.

After a spirited contest between the Fraternity and Non-Partisan parties at the Oakland High School yesterday afternoon, Harry Bruning, a non-fraternity man was elected editor of the Aegis, the political light is a member of the Sphinx Club and has also been on two debating teams.

The closest run lay between Philip Benes and Robert Jordan, but on account of being better known Jordan won the fight by seven votes. The Non-Partisans carried the day by electing four men out of five, the following being chosen: Editor, Harry Bruning; first associate, Boyd Harold; second associate, Kenneth McKim; third associate, Hazel Wilkins; fourth associate, Patty Chickering; president, Vernie Sheehan; vice-president, Herbert Walker; secretary, Robert Jordan; treasurer, Samuel Taylor; business manager, Rossiter Mikel.

IS NO LIMIT TO ONLY ONE GAME YESTERDAY.

BRITT AND CANOLE FIGHT TO-NIGHT BEFORE COLMA CLUB.

RAIN PREVENTS BASEBALL GAMES AT SACRAMENTO AND SAN FRANCISCO.

James Edward Britt and Martin Canole will meet this evening in the squared circle before the Colma Athletic Club of San Mateo county in the light weight supremacy. It will be the first fight under the auspices of the new club and is expected that there will be an immense crowd in attendance.

It is conceded all around that it will be a very close contest. Both men are in fine shape and have no future fights to prevent them from extending themselves to the limit of their ability. It will be the hardest fight Britt has ever had, but nevertheless, the wise ones pick him as a winner. He is a 10 to 5 favorite in the betting.

By a direct wording of the ordinance permitting boxing in San Mateo county there is no limit to the number of rounds that may be waged and it will be placed within the discretion of the referee to order fighting if he fails to see an advantage in favor of either man when the advertised twenty-five rounds have been concluded. Champions must make good their premiership or step aside. Many favor the scheme of extra rounds fast and furious, as the contestants cannot afford to lose a second. On the other hand the plan will open an arbitrary way for the referee that will be dangerous unless handled with extreme discretion.

Jack Welch has been given the job of deciding the winner. He was named by the club as its official referee and was satisfactory to both sides. He does not fancy the position much as he looks for a very close fight. The honor was accepted, however, without being sought. Welch is a capable and honest referee. The use of the arbitrary extra-round power will be watched with critical eyes if it comes up to him to put it into execution.

There were no baseball games at either Sacramento or San Francisco yesterday on account of the rain and it begins to look as if there will be none for the balance of the week. The only game played yesterday was at Los Angeles between the leaders and the Portland Browns. The latter team played a very poor fielding game and Los Angeles had no difficulty in annexing the game by a 5 to 1 score.

Hall did the pitching for the Angels and he was very effective. He held them down to six hits, one pass and struck out the only man who fanned during the game. McFarlan also pitched a good game and would have made the score closer had he been given even fair support. Score:

	R	H	E
Los Angeles	5	6	2
Portland	1	5	5

NEWS ITEMS FROM ALAMEDA.

WOMAN MAKES CHARGES AGAINST FRANZ WISCHENSKY-SKI AND SUES.

ALAMEDA, Nov. 20.—Because Franz Wischensky, an alleged regular medical practitioner, tried the water cure on his housekeeper, Mary Holden, with unsatisfactory results, the latter has brought suit against him for \$150 damages for resultant mental and physical sufferings.

In stating her case before Justice Tappan Miss Holden alleged that she "was forced to take the water cure" and "was administered harmful drugs by Wischensky, who made it appear that he was a practicing physician."

She furthermore alleges that "this treatment has made her very ill and afflicted." And that she has "suffered great pain and injury."

An additional sum of \$45 is asked, which plaintiff claims is due her on back wages. No date has been set for the trial, but Miss Holden's sensational charges will cause it to be followed with interest by a Wischensky is well known in Alameda.

H-O builds brain and braven

Phosphates build brain—nitrogen muscle. An oatmeal that supplies these constituents so that they may be readily digested makes a wholesome, no irishing breakfast for either weak or strong. In H-O the fibre is eliminated.

A puzzle in every H-O package.

YOUNG CORBETT ARRIVES ON COAST.

Champion Young Corbett and George Weldon arrived from Denver this morning on a delayed overland train and the little champion soon found that he had brought a well-defined case of la grippe with him. A doctor ordered him to bed at the Palace Hotel and he will not attempt to leave his room until the skies have cleared.

Have you seen them? Something new. Rubber soles; cheaper and better than rubbers. We know how. Modern Shoe Repairing Factory, Eleventh and Clay streets.

An intellectual man admires a foolish woman because she admires him.
